Electric unicycle Maintenance and Legal Disclaimer

Before using your unicycle, please read the instructions, and keep this manual for ready reference.
Original instructions

SAFETY NOTICE

1. This product is an entertainment device and not a means of transportation. Riding on public roads is prohibited. When riding, be sure to comply with local laws and regulations.
2. Carefully read this user manual. If you are unable to ride the vehicle according to the instructions in this manual, do not attempt to ride the vehicle. Always wear a certified helmet and other protective gear when riding.
3. Riding the vehicle requires practice and mastery of corresponding riding skills. It is recommended to practice in closed and open areas such as residential areas, parks, and dedicated venues. For the first ride, do not select areas where children, pedestrians, pets, vehicles, bicycles, or other obstacles and potential dangers may appear. INMOTION Technologies Co., Ltd. will not be responsible for any damage caused by insufficient riding experience or failure to follow the instructions in this manual.
4. Following the prompts and warnings in this manual can reduce risks, but not eliminate all risks. Remember, there may be injuries or death risks due to loss of control, collision, and falls while using the vehicle. Do not exceed the speed limit, and do not ride on roads where motor vehicles are present under any circumstances.
5. Before lending the vehicle to others, make sure they have read this manual and understand the riding risks. You are responsible for ensuring the safety of new riders. Help them learn how to use the product until they have mastered the basic operation of this vehicle.
6. Do not place the vehicle near an open flame or high temperature. Unauthorized modification and repair of the vehicle can cause abnormalities and void the warranty.
7. If the vehicle has any abnormal conditions such as damage, strange smells, smoke, overheating, or performance failure of parts, immediately stop using it and contact customer service.
8. The product may contain detachable components. Keep them away from children to avoid harm caused by swallowing or ingestion.
9. Eliminate any sharp edges that may arise due to use of the vehicle.
10. No additional items not approved by the manufacturer shall be used.
11. The vehicle shall not be modified or reconstructed, including turning pipes and sleeves, stems, folding mechanisms, and rear brakes.
12. It is recommended that no modifications be made that are not specified in the manufacturer's manual.

RIDING INSTRUCTIONS

1. When riding this product, please comply with local laws and regulations and policy requirements. It is prohibited to use it in areas where entry is prohibited by local laws and regulations or related management units.
2. When riding, please respect the right of way of pedestrians. Pass on the left side of pedestrians as much as possible. When facing pedestrians, keep to the right and slow down. Avoid alarming pedestrians, especially the elderly, children, disabled people, and pregnant women. When approaching pedestrians from behind, remind them and slow down when passing.
3. Do not drive when fatigued. When riding, make sure you and others are visible. Please pay attention to maintaining a sufficient safe distance from pedestrians or other vehicles to avoid the risk of collision. Therefore, when you approach or pass through crowded pedestrian areas, intersections, or turning points, please slow down, yield to pedestrians and other vehicles.
4. Please do not suddenly accelerate or decelerate. When riding, always stand on the pedals with both feet. Stunts are prohibited. Do not drive at speeds exceeding the vehicle's limit, otherwise, there may be a risk of losing control, collisions, and falls.
5. Please do not turn while riding at high speed or suddenly brake. The above actions can easily cause danger (such as slipping and falling). Be sure to slow down when turning. High-speed turns can lead to loss of control, which may cause the vehicle to overturn and there is a risk of injury or death.
6. Do not use headphones, earplugs, mobile phones, handheld shooting equipment, or engage in any activity or behavior that may distract your attention while riding a bicycle so that you can better monitor the external environment.
7. Please do not ride under the following conditions, including but not limited to: severe weather, low visibility, night, darkness. Each of the above conditions will increase the risk of accidents.
8. For any reason, please do not ride a bicycle in snowy, rainy, slippery roads, muddy roads, or icy conditions. The resistance of tires on wet or slippery roads decreases and the braking distance increases, making it easier to slip or lose control. When riding in rainy or snowy weather, the vehicle may become waterlogged, leading to functional damage, fires, or even explosions due to damp batteries. Damage and losses caused by water ingress are not covered by the warranty.
9. When riding, please avoid obstacles, potentially dangerous road surfaces, and difficult-to-cycle road surfaces (including but not limited to wet and slippery surfaces, ice surfaces, swimming pools and other water areas, loose sand or dispersed material surfaces, steps and nearby areas, and uneven surfaces).
10. When you approach pedestrians or cyclists, notify them of your presence when you are not seen or heard.
11. When approaching or crossing intersections, street corners, or any type of gate, be sure to slow down.
12. Do not ride at unsafe speeds. You must make the correct judgment based on your driving skills and surrounding environment.

13. Push a bicycle through a pedestrian crossing.
14. Do not touch moving or rotating wheels.
15. In order to ride safely, you must be able to see what is in front of you, and you must be visible to others.
16. Riders must be able to hear their surroundings.

 **Warning:**

- The rider requests that this product be used by users aged 14 to 50. Minors need to use it under adult supervision.
- Riders should wear safety protective gears such as helmets, knee pads, and elbow pads. Please use a qualified helmet and fasten the strap in the appropriate position under the chin.
- Personnel who are not suitable for riding this vehicle include:
- Persons under the influence of alcohol or drugs;
- Persons who cannot engage in strenuous physical activity due to illness;
- Persons with physical, sensory, or mental defects or lack of experience and knowledge;
- Persons who cannot maintain balance;
- Persons whose weight exceeds the prescribed limit (see "Basic Parameters");
- Children under 14 years old;
- Pregnant women.
- This product is limited to single-person riding. It is forbidden for two or more people to ride at the same time, and it is forbidden to ride with children or heavy objects.
- Shoes must be worn while riding. High-heeled shoes, slippers, and open-toed shoes are prohibited. Tie long hair up to avoid accidents caused by obstructed vision during normal riding.
- It is strongly recommended to wear protective goggles while riding to prevent dirt, dust, or insects in the air from causing eye damage, affecting normal riding, and causing accidents.

Daily Riding Inspection

1. Before riding, please read this user manual carefully.
2. Before riding, make sure you have sufficient physical and mental conditions to ride the vehicle normally without assistance and control the vehicle.
3. Before each ride, carefully inspect the vehicle and regularly check the tightening of various bolts and components, especially the wheel axles, folding system, steering system, and brake axles.
4. Ensure that there are no loose or damaged parts, component failures, insufficient tire pressure, or other abnormal conditions, and ensure that the brakes are working properly. If there is any unusual smell, noise, or alarm from the vehicle, please stop using it immediately and diagnose it through the INMOTION App or contact the after-sales service (phone: 4000-1000-12 extension 8015; email: service@imscv.com; AmazonService@imscv.com) or the after-sales service of the purchase channel to obtain professional technical guidance or maintenance services.
5. Before each ride, check the battery level to ensure sufficient power to maintain normal riding and avoid danger.
6. It is recommended to park on a flat and firm surface. If parked on a slope, the unicycle kickstand must face the downhill to prevent tipping over. After lowering the kickstand, please check whether the vehicle is stable to prevent the vehicle from tipping over due to external interference such as sliding, wind or shaking. Do not park in busy areas. It is recommended to park near the wall.
7. Parking without turning off the power may cause the vehicle to move spontaneously, causing damage to you, people around you or property. Therefore, be sure to turn off the power before parking.

Other

1. Only use original or Approved parts and accessories from INMOTION. Do not modify your unicycle. Modifying your unicycle may affect its operation, leading to serious damage and invalidating the warranty.
2. For a better riding experience, it is recommended that you regularly maintain the product (see "Maintenance Plan").
3. Children should not use unicycles, play with unicycle parts, or perform cleaning or maintenance activities.

MAINTENANCE

Cleaning

Use a soft damp cloth to wipe the unicycle frame clean. If there are stubborn stains, Apply toothpaste and brush repeatedly with a toothbrush, then clean with a soft damp cloth.

Warning:

- Before cleaning, make sure the vehicle is turned off and the charger is unplugged, and the charging port cover is securely fastened, otherwise, electronic components could be damaged.
- Please do not use alcohol, gasoline, kerosene, or any other corrosive or volatile solvent to clean your unicycle. These substances may damage the appearance and internal structure of the vehicle. The use of a pressure washer or hose for spraying and rinsing is prohibited.

Storage

When not in use, park the vehicle indoors or store it inside to avoid damage from rain, snow, and other harsh weather conditions. This product should be stored in a cool, dry place and not left outdoors for an extended period of time.

Warning:

- Exposure to direct sunlight and extreme temperature conditions (too hot or too cold) will accelerate the aging of plastic components and may reduce battery life.

Battery Maintenance

Warning:

- Use the original charger and battery pack. Do not use other models or brands of chargers and battery packs, as this may pose a safety risk.
- Do not exceed the specified temperature limit (see "Technical Specifications") when storing or charging the battery.
- Do not touch the battery contacts, and do not open or puncture the casing. Avoid short-circuiting the battery contacts with metal objects, as this may cause damage to the battery or even harm to individuals.
- Do not throw the battery pack into fire, as this may cause the battery to malfunction, overheat, and even catch fire.
- Keep the battery out of reach of children and animals, and avoid charging near flammable materials.
- Do not charge the unicycle in a damp environment.
- If the battery is damaged or gets wet, do not charge or continue using the battery.
- Do not remove the battery. Disassembling the battery is complex and may affect the operation of the vehicle.
- Do not attempt to disassemble the battery, as there is a risk of fire. Users are not allowed to repair the parts contained in this product by themselves.
- Do not ride the unicycle in an environment where the ambient temperature exceeds the operating temperature of the product (see "Technical Specifications"), as both low and high temperatures will limit the maximum power output and may cause slipping or falling, resulting in personal injury or property damage.
- After each use, charge the battery to 60%-80% and store it, which is beneficial for extending the battery life. Completely depleting the battery may permanently damage it, so please avoid completely depleting the battery.
- Improper disposal of waste batteries can seriously pollute the environment. When disposing of waste battery packs, please comply with local regulations. Do not discard waste battery packs at will to protect the natural environment.

Tips:

- The battery will continue to discharge even when the vehicle is turned off. If the vehicle is not used for a long time, it is recommended to keep the battery at a level of 60% or higher and charge it every 30-60 days, otherwise, the battery may be overly discharged, resulting in decreased battery performance. The battery has an intelligent chip inside that records the charging and discharging status of the battery. Damage caused by overcharging or over-discharging the battery is not covered under the warranty.
- A well-maintained battery pack can maintain good operating condition even after traveling many miles. When used at room temperature (25°C), the battery's endurance and performance are optimal. However, when used at temperatures below 0°C, the battery's endurance and performance may decrease. Generally, low temperatures affect the product's endurance, and the lower the temperature, the shorter the range.

⚠ Warning:

- Do not use this product near water.
- Please stop using the product if it is damaged.
- Keep plastic covers away from children to prevent choking.
- Fire and electrical hazards - No user-serviceable parts.
- Using the product in damp weather will increase braking distance.
- Brakes may become hot during use. Do not touch after use.
- Only use the detachable power unit that comes with this device to charge the batteries.
- This vehicle contains non-replaceable batteries. The vehicle must be used with the battery charger provided with it.
- Like any mechanical part, vehicles are subject to high stress and wear. Different materials and components may have different reactions to wear or fatigue. If a component exceeds its expected lifespan, it may suddenly break, potentially causing injury to the user. Cracks, scratches, and discoloration in high-stress areas indicate that the component has exceeded its useful life and should be replaced.

Mark Explanation

	To reduce the risk of injury. User must read instruction manual.		CE certification
	General warning sign		UK certification
	Warning: Electricity		Waste electrical products should not be disposed of with household waste. Take to an authorized recycler.
	Warning: Hot surface		Waste electrical products should not be disposed of with household waste. Take to an authorized recycler.

Information on Disposal for Users of Waste Electrical & Electronic Equipment

This symbol on the product or on its packaging indicates that used electrical and electronic products should not be mixed with unsorted municipal waste. For proper treatment, it is your responsibility to dispose of your waste equipment by arranging to return it to designated collection points.

Disposing of this product correctly will help save valuable resources and prevent any potential negative effects on human health and the environment, which could otherwise arise from inappropriate waste handling.

Penalties may be applicable for incorrect disposal of this waste, in accordance with your national legislation.

Please contact your local authority for further details of your nearest designated collection point.

Battery recycling information for the European Union

This symbol means that batteries and accumulators, at their end-of-life, should not be mixed with unsorted municipal waste. Your participation is an important part of the effort to minimize the impact of batteries and accumulators on the environment and on human health. For proper recycling you can return this product or the batteries or accumulators it contains to your supplier or to a designated collection point.

Disposing of this product correctly will help save valuable resources and prevent any potential negative effects on human health and the environment, which could otherwise arise from inappropriate waste handling.

Penalties may be applicable for incorrect disposal of this waste, in accordance with your national legislation. There are separate collection systems for used batteries and accumulators.

Please, dispose of batteries and accumulators correctly at your local community waste collection/recycling center.

Radio Equipment Directive

Declare that the product listed in this section comply with the essential requirements and other relevant provisions of the Radio Equipment Directive 2014/53/EU.

Restriction of the use of certain hazardous substances (RoHS) Directive

Declare the whole product including parts(cables, cords, and so on) meets the requirements of RoHS Directive 2011/65/EU and amendment Commission Delegated Directive (EU) 2015/863 on the restriction of the use of certain hazardous substances in electrical and electronic equipment("RoHS recast" or "RoHS 2.0").

Machinery Directive

Declare that the product listed in this section comply with the essential requirements and other relevant provisions of the Machinery Directive 2006/42/EC.

Declare that the product model: POSE complies with the essential requirements and other relevant provisions of the Radio Equipment Directive 2014/53/EU, the machinery directive 2006/42/EC, and the RoHS Directive 2011/65/EU and amendment Commission Delegated Directive (EU) 2015/863. The declaration of conformity can be viewed at the following address: www.inmotionworld.com.

UK Compliance Statement

Radio Equipment Regulations 2017

Declare that the product listed in this section comply with the essential requirements and other relevant provisions of Radio Equipment Regulations 2017.

The Restriction of the Use of Certain Hazardous Substances in Electrical and Electronic Equipment Regulations 2012.

Declare the whole product including parts (cables, cords and so on) meets the requirements of The Restriction of the Use of Certain Hazardous Substances in Electrical and Electronic Equipment Regulations 2012.

Declare that the product model: POSE complies with the essential requirements and other relevant provisions of the Radio Equipment Regulations 2017 Supply of Machinery (Safety) Regulations 2008 and the Restriction of the Use of Certain Hazardous Substances in Electrical and Electronic Equipment Regulations 2012. The declaration of conformity can be viewed at the following address: www.inmotionworld.com.

Bluetooth	Frequency Band(s)	Frequency Band(s)
	Max. RF Power	20 mW

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

RF warning statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

TRADEMARK AND LEGAL STATEMENT

Personal Information Statement

1. Your personal information refers to all the information voluntarily entered by you when registering and authenticating with the INMOTION App and connecting with the unicycle.
2. During the use of the App, the personal information you provide in car owner authentication, product serial number activation, surveys, after-sales tracking and follow-up, and activity participation related to the product or service is for us to provide you with better products and services, and to improve and enhance your user experience.
3. You have the right not to provide personal information, but if you do not provide certain personal information, we may not be able to provide you with better products and services, and it may even affect your use of our products.
4. If you provide any personal information, it is deemed that you fully agree that INMOTION can use and disclose it to affiliated companies. The use of INMOTION and affiliated companies includes but is not limited to internal employees, consultants, agents, suppliers, and partners.
5. You agree that we may provide your personal information to relevant third parties under any of the following conditions:
6. With your special authorization;
7. In compliance with relevant laws or mandatory requirements proposed by government agencies (including judicial authorities);
8. To enforce available service terms (including investigating possible violations);
9. To deal with fraud, security or technical issues;
10. To protect the rights, property or safety of users or the public from harm within the scope required or permitted by law;
11. In special and/or urgent circumstances.
12. The use, transmission, and storage of your personal information includes electronic data methods, and the above actions may be located inside or outside China.
13. For your better use and experience, you fully agree that INMOTION and affiliated companies may push information about products, services, and related activities to you irregularly.
14. To protect the security of your personal information, we will adopt reasonable and secure measures to protect your personal information from unauthorized disclosure and use, and we will also urge other relevant parties who accept and use your personal information to fulfill the same obligations as stated in this legal statement. You agree that INMOTION will determine the storage and retention time of your personal information according to the required time for the purpose of use or any agreement, laws, and regulations.
15. You agree to fully exempt INMOTION and/or receiving parties and/or using parties from all claims, responsibilities, and losses caused by or may be caused by disclosing and using your personal information in accordance with this legal statement, unless the aforementioned claims, responsibilities, and losses are directly caused by the receiving party and/or using party's intentional act or gross negligence.

Trademark Statement

1. INMOTION is a registered trademark of Shenzhen INMOTION Technologies Co., Ltd.; Android is a trademark of Google Inc.; App Store is a service mark of Apple Inc.; other trademarks mentioned in this document belong to their respective owners.
2. This manual has included as much feature description and usage instructions as possible in printing. However, due to product function constantly improving, design changes, etc., there may still be discrepancies with the product you purchased. Due to product updates, there may be some deviations between this manual and the actual product in color, Appearance, and other aspects. Please refer to the actual product. Shenzhen INMOTION Technologies Co., Ltd. is not responsible for any claims, liabilities, and losses caused by or may be caused by consumers or any third party violating this legal statement.
3. Shenzhen INMOTION Technologies Co., Ltd. reserves all rights.
Manufacturer: Shenzhen INMOTION Technologies Co., Ltd.
Address: 18th Floor, Block B1, Nanshan iPark, No.1001 Xueyuan Avenue, Nanshan District, Shenzhen, Guangdong.
Product Performance Standard: Q/LXTX 002-2017.

Intellectual Property Statement

1. Unless otherwise provided by laws and regulations or agreed upon by agreement, INMOTION reserves all rights to the intellectual property (including but not limited to copyright, trademark right, patent right and its application right, implementation right, licensing right, etc.) involved in the products, attachments, Apps, websites, and any illegal use or disposal is prohibited without prior written permission from INMOTION.
2. This legal statement is applicable to the laws of the People's Republic of China.
3. INMOTION shall not be liable for any claims, liabilities, or losses caused or potentially caused by consumers or any third party's violation of this legal statement.
4. This legal statement is an inseparable and mandatory part of INMOTION's products (please transfer it together when reselling the product).
5. You may choose to accept all the terms of this legal statement and use INMOTION's products. If you use INMOTION's products, it is deemed that you agree to accept all the terms of this legal statement and assume any possible risks and liabilities.
6. If you do not agree to accept all the terms of this legal statement after purchasing our products, please return the product intact and undamaged, ensuring that it does not affect secondary sales.
7. Thank you for choosing and trusting INMOTION. If you have any questions, we are always willing to serve you!

1. Document Overview

1.1. About This Manual

For your driving safety, please read this manual and the user guide leaflet carefully, and also watch the video on driving guidance before using INMOTION SCV V10 (hereinafter referred to as V10) to understand how to correctly drive the V10.

Please read carefully and understand all the safety warnings and precautions listed in this manual that will be helpful for you to better control the V10.

This manual applies to the INMOTION SCV V10 produced by INMOTION Technologies Co., Ltd.

If you have any questions or cannot find the information you need from this manual, please contact the dealer authorized by INMOTION or the after-sales service department of INMOTION in time.

1.2. Relevant Documents and Data

The PDF document for User Manual, video document of Safety Video, INMOTION APP, and other helpful files can be downloaded from the official website of INMOTION Technologies Co., Ltd., www.inmotionworld.com.

2. Safe Driving Precautions

INMOTION SCV V10 is a kind of intelligent travel and commuting device and entertainment utility. If you fail to operate the unicycle according to the provisions specified in this manual, there might be a driving risk. No matter when and where, it is likely to cause injuries even death and property loss to you due to decline, out of control, crash, etc., including driving the INMOTION SCV 10 without complying with the requirements described in this manual. You must carefully read and follow this manual completely, watch relevant safety videos, and strictly follow the precautions below to reduce risks and to avoid injuries and losses:

Users need to charge INMOTION SCV V10 at least once every month at room temperature. The battery damages caused by no regular maintenance are excluded from the warranty coverage of our company.

Please wear a helmet and a protective gear during driving, and ensure that the pull rod has been folded in place.

Do not drive INMOTION SCV V10 to go up and down the slopes of more than 25°. Do not conduct rapid acceleration, rapid deceleration, and sudden turns either.

Pay attention to the road obstructions.

Do not drive the unicycle on the grass, gravel roads, wet and slippery roads, and under other inappropriate road conditions.

Do not wade the unicycle into the water.

Do not drive the unicycle to climb up and down the stairs.

Do not drive the unicycle in the motor vehicle lanes.

Do not soak the unicycle in water.

The driving speed must not exceed the maximum speed limits of this model.

Do not perform rapid acceleration after tilting up the pedal (tilting the unicycle body back).

Do not sit on the pull rod or the unicycle.

Do not lift up the unicycle in startup state.

The beginners who are younger than 18 years old or older than 45 years old need someone to help them learn how to drive the unicycle.

Please ensure that the electric quantity is sufficient, and the tire pressure is normal before driving the unicycle.

Please drive at a low speed instead of performing rapid acceleration, rapid deceleration, high-speed driving, and challenging stunts before being familiar with driving.

The IP Ratings of V10 is IP55. Please do not drive for more than 10 minutes in the light rain.

3. Product Overview

INMOTION SCV V10 is a fashion, interesting, and practical travel and commuting device and entertainment utility. In line with the dynamic balance principle, V10 can detect changes of its body pose with the built-in gyroscope and acceleration sensor, and accurately drive a motor by the servo control system to adjust accordingly for balance. Users can move forward, speed up, slow down, brake the scooter, and perform other driving operations by tilting their bodies forth or back, and also can keep the lateral balance by controlling their bodies.

3.1. Product Serial Number

The serial number, a 16-character sequence normally accompanied by one-dimensional barcode or below two-dimensional barcode, is the unique identifier of the product. It is used for quality tracing, after-sales service, insurance claim, lost confirmation, and other occasions.

Please make sure to record and keep the serial number. You can obtain the product serial number from: outer package of the product, product warranty card, and unicycle body.

3.2. Packing Container Inspection

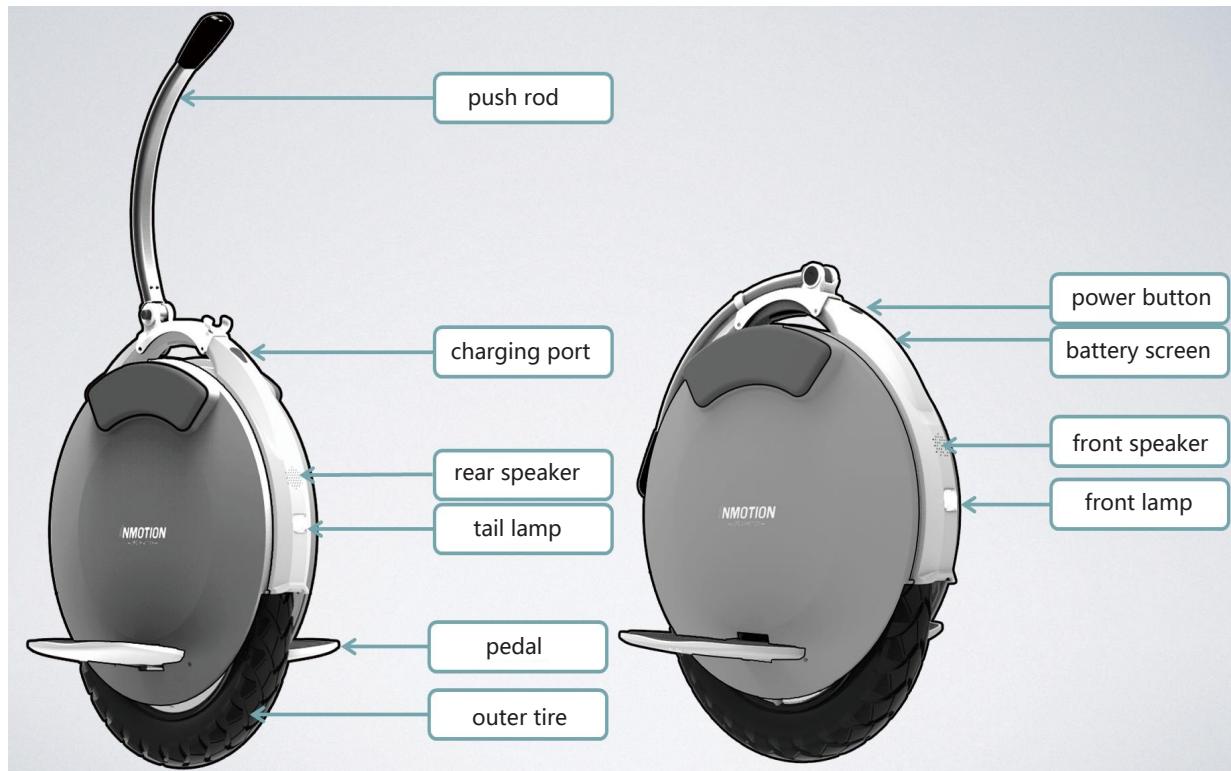

Each INMOTION SCV shall include the following components and parts when leaving the factory, namely unicycle body, charger, user manual, warranty card, and certificate. Please check after unpacking. If there are any missing components and parts, please contact the dealer.

Warning

Do not disassemble or modify INMOTION SCV V10 without permission. Otherwise, it may result in irreparable damages and harm to human body.

3.3. Product Composition

3.4. Product Parameters

Mode	V10	V10F	REMARKS
Net Weight	20.6kg	20.6kg	① This is tested while riding under full power, 75kg load, 25°C, 15km/h average speed on the smooth pavement, riding habit, environment, temperature, road condition, load and other factors will affect the ranges.
Typical Range ①	approx 70km	90~100km	
Factory Default Speed	25km/h	25km/h	
Max Speed ②	40km/h	40km/h	
Payload	120kg	120kg	
Max Slope ③	30°	30°	② The maximum cruising speed is measured at the 25 °C, the payload of 75 kg, full electric voltage and flat pavement. The factors like driving habit, environmental temperature, road surface condition, payload etc. will affect the speed.
Charging Time ④	approx 6h	approx 8h	③ This slope was measured in the case when the load is 75kg.
Tire Size	16*2.5	16*2.5	
Factory Default Tire Pressure	2.8 bar	2.8 bar	
IP Ratings	IP55	IP55	
Working Temperature	14~104 °F (-10~40 °C)	14~104 °F (-10~40 °C)	
Motor Power	1800W	2000W	
Battery	650Wh (8.8Ah)	921.6Wh (12.8Ah)	
Input Voltage	AC 100~240V 50/60Hz	AC 100~240V 50/60Hz	④ Charging time varies with the ambient temperature and the battery capacity that may change in the course of time.
Output Voltage & Current	DC 84V * 1.5A	DC 84V * 1.5A	

3.5. Product Dimension Drawings

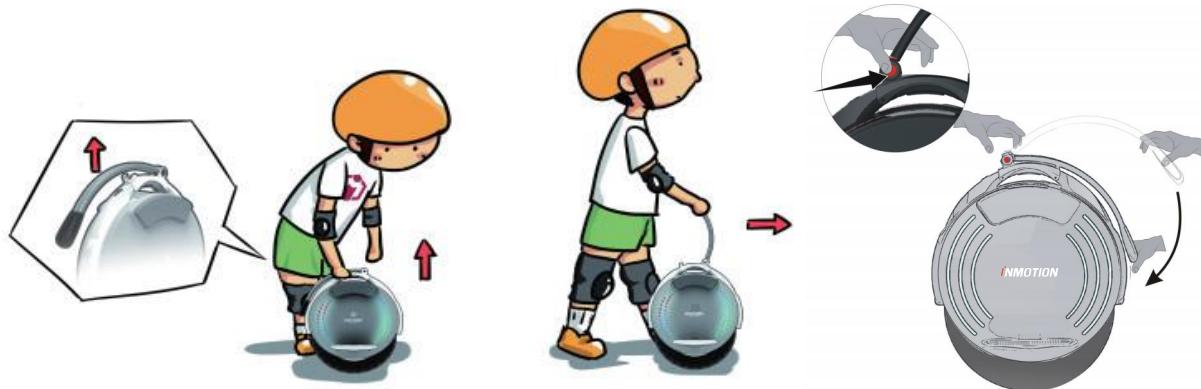

4. Product Function Introduction

4.1. Pull-up Handle and Assist Mode

The assist mode enables the system to provide proper driving force at a lower power to help users push the unicycles easily when users are unwilling to ride or when the condition is not suitable for riding (for instance, insufficient electric quantity, steep slope, wet and slippery ground, sand, bumpy road, crowded environment, etc.).

Press the button in the middle of the handle. Lift it up. The handle comes up to the highest position. Release the button in the middle. The handle automatically locks. Push the unicycle body. The unicycle enters to the assist mode at this time. Use the same method to realize handle contraction.

INMOTION SCV are designed with special handles along with the assist mode matching the unicycle bodies, and thus the users will feel very relax and convenient during driving and pushing.

4.2. Anti-spinning Button

Due to the unique algorithm of V10, if the body angle varies after the unicycle body lifts off the ground under normal startup state, it will lead to motor spinning acceleration until the unicycle shuts down. If being placed on the ground during motor acceleration, the unicycle will be likely to fly off due to the friction between wheels and ground, and there will a risk of running into others in some cases, such as elevators, stairs, getting on or off the bus, or crowded places.

The anti-spinning button below the body handle is designed for the V10 according to its characteristics. When the user holds the handle to lift up the unicycle, the key will be automatically triggered, and the unicycle will enter the sleep state. In the meantime, the motor will no longer rotate to avoid spinning accordingly. Remove your hand from the handle key to let the unicycle fall to the ground again. The unicycle will return to normal condition for continual use.

The anti-spinning function is activated by default when V10 leaves the factory. You need to turn off this function on the mobile APP if installing the learning rope for operation on the handle. Users need to know the above functions and agree to accept the relevant legal liability statements when using this function.

4.3. Overspeed Protection

INMOTION SCV V10 restricts the maximum driving speed to avoid the dangers caused by driving too fast. When the unicycle driving speed comes close to the maximum speed set by the system, the pedal will slightly tilt up for 3~5° accompanied by alarm sound. Users must slow down at this time. Do not accelerate forcibly (there is a risk of car crash if performing forced acceleration, the personal injuries and all losses caused by failure to operate according to the specification shall be borne by the users themselves). The pedal will return to normal angle once returning to normal speed.

When the electric quantity is less than 40%, the maximum speed limit will reduce gradually. When the electric quantity comes up to or is lower than the minimum driving voltage (10%), the unicycle body will automatically tilt up the pedal to give the user the hint to stop driving, otherwise it will cause damage to the unicycle.

4.4. Over-temperature Protection

INMOTION sets a protection mechanism to avoid excessive battery temperature when the unicycle operates under high load for a long time. When the battery reaches temperature limit, the unicycle will indicate overload and the pedals will turn up as well. Once power off the unicycle, it is not able to turn on temporarily. Users are supposed to restart it after 15 minutes.

4.5 Slant Protection

When the left and right tilt angle of the unicycle body is more than 55° during driving, the system will induce the abnormality of the unicycle body, and will automatically exit the self-balancing mode, so as to prevent the personal injuries caused by high-speed rotating tires after the tilting of the unicycle body. In the meantime, the unicycle will play the prompt tone. It is only necessary to right the unicycle body at this time to automatically enter the self-balancing mode.

4.6. Digital Bluetooth

INMOTION SCV is equipped with built-in digital Bluetooth 4.0 BLE module, which is used for interacting with the vehicles connected with the INMOTION APP. The name of the Bluetooth 4.0 BLE of INMOTION SCV is V10-XXXXXXX. XXXXXXX refers to the last 8 digits of the product serial number.

BLE Bluetooth needs to be connected via the INMOTION APP instead of the built-in settings of mobile phones. The initial password of Bluetooth connection via the INMOTION APP is 000000. INMOTION SCV can be added and controlled after entering the password. (Only the owner of the INMOTION SCV has the authority of Bluetooth password modification. The user can only modify the password of this unicycle after the authentication of the unicycle owner.)

After the user enters the unicycle owner authentication, click to enter the "Unicycle Status" interface of the INMOTION APP. Select the option of "Password Modification" to modify the Bluetooth password.

4.7. Colorful Atmosphere Lamp

INMOTION SCV V10 is equipped with colorful atmosphere lamps. Users can not only switch different display lamp effects via the APP, but also make animation effects on the APP on their own. When the colorful atmosphere lamp breaks down, it becomes red and flashes for indication.

- 1). Please download the APP and read the production tutorials for detailed description.
- 2). Turn off /on the atmosphere lamp
- 3.) Press the button which under the handlebar and hold the power button at the same time.
- 4). When hearing "toot", it operates successfully.

4.8 Bluetooth Speaker

INMOTION SCV V10 is equipped with a high-quality Bluetooth 3.0 Speaker inside, the user could use the mobile phone to connect the V10 via bluetooth. Turn on the V10 and the bluetooth function on mobile phone, search the Bluetooth module name and match it, after succeed matching, you could play the music on the V10 via bluetooth. The name of INMOTION SCV V10 Bluetooth Module Name is "Unicycle Audio", when you find it, you could match and connect, then enjoy your time with the wonderful music.

4.9. Voice Prompts

INMOTION SCV V10 is equipped with the voice prompts with high fidelity. When the unicycle operations or unicycle bodies are abnormal, the unicycles will give out voice prompts. In the meanwhile, users can custom-make the voices, switch themes, adjust volume, turn on or off the unicycles with the use of INMOTION APP. When there exists voice loss or noise, users can use INMOTION APP to download the voices again.

4.10. INMOTION APP

INMOTION APP is mobile software designed for INMOTION users by INMOTION Technologies Co., Ltd. to realize unicycle control, make friends, release articles, attend INMOTION activities and purchase accessories. The Chinese and English names of INMOTION APP are "乐行天下" and "INMOTION" respectively. INMOTION APP can be downloaded from our official website or corresponding APP stores (IOS system: Apple App Store; Android system: Google Play).

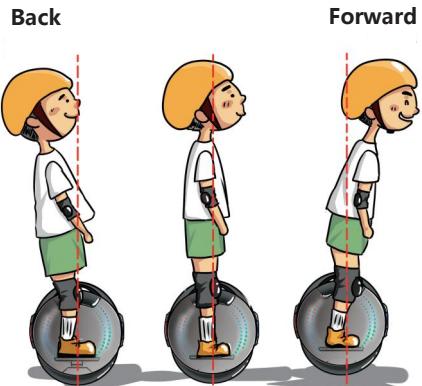

The following functions can be realized through INMOTION APP: startup/shutdown, turn on/off the light, speed display, mileage display, electric quantity display, unicycle body parameter setting, voice customization, fault detection, after-sales service, firmware upgrade, etc. For more detailed functions of INMOTION APP, download the product manual of the latest INMOTION APP from the official website.

5. Driving INMOTION SCV V10

5.1. Preparations before Driving

INMOTION SCV V10 is a high-tech travel and commuting device. Driving without learning about operating specifications may cause unpredictable injuries and property losses. The instructions given below are made for users, and contain details about how to correctly drive V10. Matters needing attention during driving are also listed. Please read them carefully and drive V10 in accordance with the instructions.

- Make sure that all parts of V10 are free from damage and installed in place before driving.
- Continuously charge the batteries of V10 for more than 3h before driving.
- You can practice driving in an open indoor or outdoor area that is flat and wide, and covers at least 4m * 4m.
- Make sure that you know the surrounding driving environment well so that the unicycle is free from the disturbance of cars, pedestrians, pets, bikes and other obstacles.
- You need a skilled assistant who is familiar with the operation of V10 as well as all the precautions and driving methods described in this manual by your side.
- Do not perform trial drive on slippery and wet fields.
- Please wear comfortable sportswear and flats, and do warm-ups to maintain body flexibility as far as possible.
- Put on safety helmet and protective gear to avoid injuries.

5.2. Operating Steps for Beginners

- Hold the unicycle body, and make sure that it is vertical to the ground after startup.
- Open the pedals on both sides. Step one foot on one side of the pedal. The sole shall be stepped on the center of the pedal.
- The upper body shall be naturally upright, and the eyes shall look straight ahead. Tilt the center of body weight to the other side of the pedal. Try to get the other foot off the ground to look for the balance point.
- Gradually begin to slowly slide forward by single-foot support, until the unicycle can keep sliding for a long time when one foot steps on the pedal.
- After keeping the center of gravity balanced when sliding with one foot, you can step both feet on the pedals. Relax the lower legs on both sides to ensure the balanced driving.
- Your body will go through temporary imbalance during practice, which is very easy to cause the slant of the unicycle body. It is necessary to lean on the railings or walls during single practice to help you keep your body in balance. You can also get to know the feeling on the V10 accompanied and supported by your friend, and learn how to drive the unicycle step by step. After being gradually familiar with how to steadily drive straight ahead, you can try to change the direction according to the personal mastery over the unicycle driving by adjusting the center of body weight or controlling your feet to twist around.

6. Maintenance and Service

6.1. Storage

Inappropriate storage will shorten the life of built-in lithium batteries or cause other hidden dangers. Please store the V10 in a dry room at suitable temperature and humidity. If you do not use it for a long time, please fully charge its battery at room temperature and at least once every month later.

6.2. Air Inflation and Inner and Outer Tire Replacement

If the tire pressure is insufficient, please conduct air inflation in time. The factory tire pressure of INMOTION SCV V10 is 2.8Bar by default. If the tire of V10 needs to be replaced due to tire burst, etc., please contact the dealer authorized by INMOTION or the after-sales service department of INMOTION for maintenance.

6.3. Pedal Tightness Adjustment

Riders will feel uncomfortable if the pedals of V10 become loose, and will even fall under severe condition. If the pedals become loose, please respectively use a M10 Allen driver and a M6 Allen driver to tighten the screws on the axis and on the side edge of the axis. Please develop a habit of checking all parts of the V10 before using.

6.4. Precautions for Cleaning and Use

- Before cleaning the unicycle, the body shall be shut down. Charging wire shall be pulled up, and the charging port shall be closed.
- During rinsing, make sure that water does not flow into the battery-charging port.
- Use a soft cloth dipped with clean water to scrub the outer cover of the V10. Do not use high-pressure water jet to flush the V10.

- The IP Ratings of the V10 is IP55, which means splash-proof and dustproof. Therefore, it is not allowed to dip the V10 in water, which may cause permanent damage to the unicycle.
- Please do not drive in the rainstorm, so as not to fall down or cause damages to the unicycle because of being soaked in the water.
- Please do not place the V10 near the fire source or the places with extremely high temperature, so as to avoid battery damages even explosion caused by hidden fire-fighting dangers.

7. Legal Statements

INMOTION SCV V10 can be considered as an intelligent and portable travel and commuting device. However, it is no replacement of the current existing means of transportation. When you use INMOTION SCV V10 as a means of transportation for short-distance travel, there might exist conditions causing injuries such as decline, crash, etc. and other risks. You have the responsibility and obligation to carefully read and learn the User Manual for INMOTION SCV V10 and User Guide; be familiar with how to drive the INMOTION SCV V10; and be fully aware of the warnings and precautions as well as the provisions specified in the following legal statements, so as to reduce (but cannot totally eliminate) potential risks and to ensure the personal and property safety of yourself and other people.

7.1. Statements of Use

For your safe application and good experience, kindly use the product in strict accordance with the following requirements:

1. Please make sure to carefully read and completely understand the User Manual for INMOTION SCV V10 and User Guide before using.
2. Please do not allow the ones who fail to carefully read and completely understand the User Manual for INMOTION SCV V10 and User Guide to use your INMOTION SCV V10.
3. Please follow instructions in the User Manual for INMOTION SCV V10 with regard to the riding age of 12-60 years old. Do not allow the ones who are beyond this age scope to drive the V10.
4. The pregnant and personnel who are not in normal physical or mental state cannot drive the V10.
5. When you are in a bad physical or mental state, such as sick, taking drugs, drinking, etc., please do not drive the V10.
6. INMOTION SCV V10 is a riding vehicle designed for one person only. Two or more people must not drive one V10 at the same time. Do not drive the V10 with loads or while holding a baby in your arms.
7. Please make sure that you are fully qualified in the physical and mental conditions for freely getting on/off and control the INMOTION SCV V10 without any assistance before riding.
8. Please do not modify or repair the INMOTION SCV V10 without permission or by the personnel who have not been authorized by our company. If there is anything wrong with the product, please contact the after-sales staff of INMOTION, which is your most secure option.
9. Please make sure that the INMOTION SCV V10 is not loose, damaged broken, or under other abnormal situations before riding.
10. Before charging, please make sure that the socket is dry, fault-free, and without any foreign matters. During charging, make sure to insert in the correct socket (AC 100V-240V, 50Hz / 60Hz), and avoid coming contact with children and pets. Furthermore, keep the V10 away from the combustibles.
11. The batteries of INMOTION SCV V10 must be placed in the environment at -20°C-45°C. Please do not place the V10 in the environment where the temperature is above 45°C. When the temperature is below -20°C, the batteries will enter the self-locking state, which are unable to be charged or used. Please place the INMOTION SCV V10 in a warmer environment for charging and using.

12. If there is any leakage (including damage, giving off a peculiar smell/smoke, or overheating) in the batteries, please stop the vehicle immediately, and avoid its contact with other objects.
13. Do not attempt to open or disassemble the batteries on your own. Do not perform abnormal operations or application to the batteries.
14. Due to different battery status and environment, the standby time of the fully charged INMOTION SCV V10 (the electric quantity display screen has 5 scales) and the not fully charged INMOTION SCV V10 (the electric quantity display screen has 1 scale) is respectively 180 days and 30 days at most. Please pay attention to the standby time to avoid causing irreversible damage to the batteries because of failing to charge them in time.
15. Please do not wear high-heeled or other unsuitable shoes, and the clothes that are too loose-fitting and unsuitable when riding the INMOTION SCV V10. Furthermore, you must wear professional protective gear during riding.
16. You are highly recommended to wear protective glasses when riding the INMOTION SCV V10, so as to prevent eye injuries caused by dirt, dust or insects in the air and the possible adverse effects on riding.
17. Do not drive INMOTION SCV V10 on rainy days and on other wet roads. When riding on the wet and slippery roads, the tire resistance reduces, the braking distance becomes longer, and the V10 is easy to slip, which might cause accidents, for instance, the INMOTION SCV V10 is out of control.
18. Please use a dry soft cloth to clean the V10 body. Do not use strong water flow or high-pressure hose to clean the V10 body. Do not soak the INMOTION SCV V10 in the water, so as to avoid uncontrollable faults, abnormalities, accidents, and other risks.
19. Do not drive the INMOTION SCV V10 in the bad weather and the adverse environment with low visibility and poor light. Do not drive the V10 when you are extremely tired.
20. Since it is difficult for drivers, motorists, and pedestrians to notice each other in time at night and in an environment with poor light, you are strongly advised against riding at night and in an environment with poor light, so as to avoid severe risks that might arise.
21. Please pay attention to the variation of road surfaces and surroundings when riding the INMOTION SCV V10. Drive carefully to avoid hurting yourself or others.
22. Please do not drive the V10 under unsuitable road conditions and in improper environment, such as on the stairs, in the elevators, or when passing through the revolving doors.
23. Pay attention to the distance among V10 body, body and obstacles when riding the INMOTION SCV V10.
24. Do not take the risk of riding on steep slopes, bumpy roads, or other terrains that you have never met before during riding.
25. Please do not make a turn at a rapid speed. Please do not slam the brakes on when riding the V10 on the slippery road. The above-mentioned behaviors are easy to cause slipping and other uncontrollable situations.

26. Please do not drive on the bicycle lanes. Please do not drive on the motor vehicle lanes and other unsuitable places. Please strictly obey the traffic rules and other laws and regulations. When the V10 comes close to or passes through the crossroads, motor vehicle lanes, corners, and doors, please pay attention to slow down and avoid. In the meanwhile, the driver needs to have defensive awareness and pay attention to the dangers that might cause by the traffic and pedestrians.
27. When riding the V10, pay attention to and take precautions against the vehicles from all directions, pedestrians, pot holes, sewer separa-tors, railway tracks, expansion joints, road surfaces, road construction, debris, and other obstacles as well as other dangerous situations that might affect the personal and property safety of you and others at any time.
28. Do not make and receive phone calls or do any activities or actions that might distract you when riding the INMOTION SCV V10, so as to pay attention to monitor the external environment at any time.
29. Please drive forward along the riding directions of the bicycle lanes allowed and specified by the local governments and laws or the road edges. Do not drive in a direction not allowed by traffic regulations.
30. Please do not cut in the ways of vehicles and pedestrians when going out by riding the INMOTION SCV V10.
31. Please do not put your hands on another means of transportation for dragging when riding the INMOTION SCV V10. Do not perform any improper behaviors, such as making stunts, doing any other extreme sports, etc.
32. Please do not drive the INMOTION SCV V10 alone when you need to drive to some remote area. It is necessary to prevent potential risks even when you drive the V10 along with others.
33. INMOTION SCV V10 is personal short-distance travel and commuting device. Do not use it for freight or other improper purposes. The data and parameters of INMOTION SCV V10 varies along with different product models, which are subject to change by INMOTION without prior notice.

7.2. Statements of Personal Information

1. Your personal information shall include the personal information that you voluntarily enter to bind the INMOTION SCV V10 when using the INMOTION APP (hereinafter referred to as APP) to connect with the INMOTION SCV V10 for registered certification, and the personal information that you voluntarily provide during the product application, including but not limited to your name, gender, age, address, contact way, occupation, and the time and place for using our service, etc.
2. In the process of using the APP, your personal information provided during the owner certification, product serial number activation, questionnaire and after-sales follow-ups and return visits, solicitation of the opinions or suggestions with regard to products or services, and activity participation is convenient for us to provide better products and services for you, and improve your user experience.

3. You have the right not to provide your personal information. However, if you refuse to provide some of your personal information, we may not be able to provide better products and services for you, and even might deter you from using our products and services.

4. Any personal information provided by you shall be deemed as the fact that you have entirely agreed with the idea that your personal information can be used by INMOTION itself or its affiliated companies after the disclosure. The application of INMOTION and affiliated companies shall include but not limited to the application of the internal staff, consultants, agents, suppliers, and partners of INMOTION and its affiliated companies.

5. You agree that we might provide your personal information to the interested third party when in line with any of the following conditions:

(1). After your special authorization;

(2). Conforming to the relevant laws and regulations or the mandatory requirements put forward by the government agencies (including the judiciary authorities);

(3) Perform the Terms of Service available (including investigating possible violations);

(4) Deal with frauds, safety or technical issues;

(5) Protect the rights, properties or security of users or the public from being damaged within the scope of legal requirements or the allowable range;

(6) The needs under special and/or emergency circumstances.

6. The electronic data of your personal information can be used for application, transmission and storage, and the above-mentioned behaviors might exist in or out of China.

7. You completely agree with the idea that INMOTION and its affiliated companies might push the information with regard to the products and services as well as the relevant activity information from time to time for your better application and experience.

8. We will take reasonable and safe measures to protect the safety of your personal information, and to prevent your personal information from being disclosed and used without authorization. Furthermore, we will also drive other interested parties accepting and using your personal information described in this legal statement to fulfill the same obligations. You agree with the idea that INMOTION decides the time to save and keep your personal information according to the time required by intended use or any agreements, laws and regulations.

9. You agree to exempt INMOTION and/or its affiliated companies and other receivers and/or users from any claims, responsibilities and losses caused or might be caused by disclosing and using your personal information according to this legal statement, unless the above-mentioned claims, responsibilities and losses are caused by the direct intentional behaviors or gross negligence of the receivers and/or users.

7.3. Statements of Intellectual Property

Unless otherwise stipulated in laws and regulations, or otherwise agreed in agreements, all rights of the intellectual properties (including but not limited to the copyright, trademark right, patent right, application right, enforcement right, permissions, and other powers) with regard to the products and their accessories, APP and website are reserved by INMOTION. No illegal use or any other punishments shall be conducted without the prior written consent of INMOTION.

This legal statement shall apply to the Law of the People's Republic of China.

For all the claims, responsibilities and losses caused or might be caused by consumers and any third party violating this law statement, INMOTION shall assume no responsibility for the claims and any other obligations.

This legal statement constitutes the integral legal part of the INMOTION products (please make sure to transfer this legal statement during product resale). You can choose to accept all the terms and conditions of this legal statement for using the INMOTION products. If you use the INMOTION products, it shall be deemed as the fact that you have agreed to accept all the terms and conditions of this legal statement, and to undertake any possible risks and responsibilities.

If you do not agree to accept all the terms and conditions of this legal statement after purchasing our products, please return the goods; and make sure that the products and packaging are intact without affecting the secondary sales during the sales return.

Thank you for choosing INMOTION and trusting us. For any questions, contact us, and we are always ready to be at your service.
