FCC Warning Statement

Changes or modifications not expressly approved by the party
responsible for compliance could void the user's authority
to operate the equipment.

This equipment has been tested and found to comply with the
limits for a Class B digital device, pursuant to Part 15 of the
FCC Rules.These limits are designed to provide reasonable
protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency
energy and, if not installed and used in accordance with the
instructions,may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in
a particular installation. If this equipment does cause harmful
interference to radio or television reception, which can be determined
by turning the equipment off and on, the user is encouraged to try to
correct the interference by one or more of the following measures:

-- Reorient or relocate the receiving antenna.
-- Increase the separation between the equipment and receiver.
-- Connect the equipment into an outlet on a circuit different from
   that to which the receiver is connected.
-- Consult the dealer or an experienced radio/TV technician for help.

INSTRUCTIONS

Start-up

For best results on your Bluetooth headset, please follow steps below.
   1.Fully charge headset before first use.
   2.Pair the headset with any Bluetooth-enabled device.

Charge

Plug the charging cable into the headset and then connect the
charging cable to the USB port of your PC. The red LED light
will light up during charging.

Turn On

Press the multifunction button and hold for 4 seconds
until "power on" is heard and the blue light flashes.

Turn Off

Press the multifunction button and hold for 3 seconds.
The red LED light will flash quickly.
Please Note: It is strongly recommended that you turn off the
headset and Bluetooth on the device while not in use.

Pairing

Please check to make sure the device to which you are pairing has
Bluetooth capabilities. This information should be included in your
phone or device's instructions or packaging.

1.   Make sure that the headset is turned off.
2.   Place the headset and the device in proximaty so that both
devices are in view.
3.   Press and hold the multifunction button for 4 seconds until
headset power is on. Red and blue LED lights will flash and
"pairing" is heard.
4.   To activate the Bluetooth mode and functions on your phone or
device, see the instructions for that device.
5.   Set the phone or device to search for Bluetooth devices and
select.
6.   Enter the pass code 0000 and press OK to pair your headset
with the device. When the pairing is complete, the LED will flash
blue regularly while the headset is in standby mode.
7.   The headset is now ready for listening to music or answering
calls.
Note: Some mobile phones or other devices may pair automatically
when re-started.

Answer / Reject / End a call

When a call comes in, the ring will be heard through the headset.
1.   Press the multifunction button to answer the call.
You may also answer through your phone.
2.   To reject a call, press the multifunction button .
You may also accept or decline a call using your phone's functions.
3.   To end a call, press the multifunction button during
the call. You may also end the call using your phone's functions.

Redial the last dial-out number

On standby mode, double press the multifunction button.

Play / Pause

In the process of playing music, press the multifunction button
to pause or play music.

Volume Control

1.   Press the V+ button to raise the volume while in use.
2.   Press the V- button to lower the volume while in use.
