### Modular Approval Request

**FCC ID:** 2ADX4-MDEV7

**The following attestation addresses the requirements to support modular approval:**

| Modular approval requirement                                                                                                                                                                                                  | Yes (provide brief statement)                                                                               | No * |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------|------|
| (a) The radio elements must have the radio frequency circuitry shielded. Physical components and tuning capacitor(s) may be located external to the shield, but must be on the module assembly                                | Yes                                                                                                         |      |
| (b) The module must have buffered modulation/data inputs to ensure that the device will comply with Part 15 requirements with any type of input signal                                                                        | Yes                                                                                                         |      |
| (c) The module must contain power supply regulation on the module                                                                                                                                                             | Yes                                                                                                         |      |
| (d) The module must contain a permanently attached antenna, or contain a unique antenna connector, and be marketed and operated only with specific antenna(s), per Sections 15.203, 15.204(b), 15.204(c), 15.212(a), 2.929(b) | Yes, the module has a unique antenna connector, and is marketed and operated only with specific antenna(s). |      |
| (e) The module must demonstrate compliance in a stand-alone configuration                                                                                                                                                     | Yes                                                                                                         |      |
| (f) The module must be labelled with its permanently affixed FCC ID label, or use an electronic display (See KDB Publication 784748 about labelling requirements)                                                             | Yes, FCC ID is printed on the physical label of the module.                                                 |      |
| (g) The module must comply with all specific rules applicable to the transmitter. The grantee must provide comprehensive instructions to explain compliance requirements                                                      | Yes                                                                                                         |      |

Redpoint Positioning, Corp.  
100 N Washington Street  
6<sup>th</sup> Floor  
Boston, MA 02114, USA

| Modular approval requirement                             | Yes (provide brief statement) | No * |
|----------------------------------------------------------|-------------------------------|------|
| (h) The module must comply with RF exposure requirements | Yes                           |      |

\* Please provide a detailed explanation if the answer is "No."

Yours sincerely,

Name: Keru Xia  
Company: Red Point Positioning Corporation
