Solder Board-Component View 2	 A photograph of a small, rectangular green printed circuit board (PCB) component. The component has a central square chip, several smaller components, and a gold-colored connector on the right side. It is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component spanning approximately 20 mm in width and 15 mm in height.
Solder Board-Component View 3	 A photograph of a larger, rectangular blue printed circuit board (PCB) component. The component has a central square chip, several smaller components, and a gold-colored connector on the right side. It is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component spanning approximately 40 mm in width and 20 mm in height.

Solder Board-Component View 4	 A photograph of a small electronic component, likely a Wi-Fi module, mounted on a blue textured surface. A black cable is connected to the top of the component. A ruler is placed horizontally below the component, showing measurements in millimeters. The component has a gold-colored PCB and various electronic components.
Antenna View	 A photograph of the back of a black electronic device, showing the internal components. Two antennas are visible, labeled ANTI and ANTO. Red lines connect these labels to the antenna components. Below the image, there are two red-bordered boxes: "WIFI 1 Antenna" on the left and "WIFI 0 Antenna" on the right, with red lines pointing to the respective antenna components in the image above.

Model: LKV488TypeC-V2.0-TX, LKV477TypeC-V2.0-TX, LKV455TypeC-V2.0-TX

Solder Board-Component View 4	 A photograph showing the solder side of a small electronic component. The component is a square chip with a gold-colored surface, mounted on a blue printed circuit board (PCB). The PCB has several gold-colored pads and a small circular component. The component is placed on a blue background with a black ruler for scale. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).
Solder Board-Component View 5	 A photograph showing the component side of the same electronic component. The component is a square chip with a green surface, mounted on a blue printed circuit board (PCB). The PCB has several gold-colored pads and a small circular component. The component is placed on a blue background with a black ruler for scale. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).
