

## RGBW Remote Control User Instruction

Ver1.0

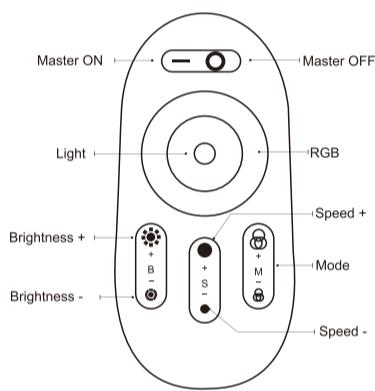

Thanks for your purchase !

The remotes can control the intensity, change the color and mode that is controlled by the programs, and you can master the speed of the lights flashing in each groups.

In this manual, you will learn about:

> **Basic functions of the remote controls:**

### Basic control functions

### Tips

. Touch the color ring, you can get any color.  
. you can change the mode to get the individual color by the built-in program

### Program:

1.Red	2.Green	3.Blue	4.Yellow
5.Orange	6.Cyan	7.White	
8.Red and Green	9.Red and Blue	10.Green and Blue	11.Red and Green and Blue
12.Red and Green and Blue and Yellow and Purple and Pink and White			

We recommend using rechargeable batteries for the remote controls.  
For that reason, we don't include ordinary batteries. We hope you appreciate our environmental friendly choices and they do not cause you any inconvenience.

### FCC STATEMENT:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

RF warning statement:  
The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
