Justification of Supersession

Date: July 18, 2019

TO: Federal Communication Commission
Equipment Authorization Branch
7435 Oakland Mills Road
Columbia, MD 21046

To whom it may concern:

This justification is for a purpose of requesting for permissions of putting the filing of authorized equipment:

FCC ID: [2ADZ9-JR-02-W](#), Grant Date: 03/16/2016

into auditor mode to allow the granting TCB to supersede the exhibitions of test report that has already been publicized on FCC host site with correct version.

Due to incorrect test data which applicable to §15.207 AC power line conducted emission was misplaced in the EMC test report(s) ER/2016/10073 Page 16 ~ 17 and ER/2016/10074 Page 17~18, we plead the replacement of the existing EMC test reports with revised ones that contain the correct test data.

There is no modification occurred to the authorized equipment, hence this request is ensured not applicable to any provisions related to changes in certificated equipment such as §2.1043.

In order to reflect the authenticity of every detail compliance, we deem the supersession of test report that entails falsified measurement result is necessary.
