All rights of this manual are the exclusive property of S.NOW. sa. All rights are reserved. A copy of this manual (without the written permission of the owner) by printing, copying, recording or by any other means, the translation of this book (complete or partial) to any other language, including all programming languages, in using any electrical device, mechanical, magnetic, optical, manual or other methods is prohibited.

S.NOW sa reserves the right to change the technical specifications or functions of its products or to discontinue the manufacture of any of its products or to discontinue the support of any of its products without any written notice and express request of its customers, and to ensure that the information available to them are valid.

Environmental recommendations

All unnecessary packaging material has been removed. We have done our best to make the packaging easy to separate into three materials: cardboard (box), expandable polystyrene (buffer) and polyethylene (bags, protective foam sheet).

Equipment consists of materials which can be recycled and reused if disassembled by a specialized company. Please observe the local regulations on how to dispose of old packaging materials, exhausted batteries and old equipment.

Warnings

Warnings relevant to Smiley boxes:

Read specific instructions in this manual

Security of this equipment is subject to proper use in line with his purpose - customer satisfaction measurement

Warning, do not install this equipment close to a heating source or humidity source

Warning, equipment should not be open in any case. We decline all responsibility in case of opening

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with FCC Part 15 and Canada RSS rules.

Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

USE RECOMMENDATIONS

- The product was designed for indoor use.
- After use, the batteries should be disposed of in a suitable recycling center. They should not be discarded in the environment.
- Do not short circuit the battery contacts.
- Do not open terminals and batteries.
- Do not expose batteries to temperatures above 100 ° C (212 ° F)
- This device should not be used by people (including children) with limited physical, sensory or mental capabilities, or those who do not know the necessary methods, unless they are assisted by a person charge of their security, or someone who has read the instructions for use. Children should be supervised to ensure they do not play with the system.
- Good cleaning practices (eg use soft water based products/ do not clean the electrical connections / do not use solvents, detergents or abrasive products)
- Avoid direct exposure to sunlight

Symbol DC

Positive polarity

Disposal by users in private households

This symbol on the product or its packaging indicates that this product should not be disposed of with your other household waste. Instead, it is your responsibility to dispose of your waste by bringing them to a designated collection point for the recycling of electrical and electronic equipment. The separate collection and recycling of your waste at the time of disposal will help to conserve natural resources and to ensure environmentally friendly recycling and human health. For more information on the nearest recycling center in your home, contact the nearest town, the disposal of waste disposal service or the supplier from whom you purchased the product.
