

Boom Bluetooth Earbuds

Instruction Manual
7199-63

SAFETY INSTRUCTIONS:

- Keep out of reach of children.
- Do not attempt to repair. Seek professional consultation if the headphones aren't working properly.
- Do not insert objects into parts that are not USB cables.
- Do not charge and use device at the same time.
- Keep away from flame, water, or out of extreme temperatures.

Bluetooth Mode:

1. To Power On: Press and hold the multi-function button for 3 seconds until the LED begins flashing blue.
2. Power Off: Press and hold the multi-function button for 3 seconds, the LED indicator will flash red/blue then it will become solid red, and finally the LED will turn off-indicating the Boom has been shut off.
3. The LED indicator will flash from blue to red when not in use and entering standby mode. This will turn the device off to conserve power.

Bluetooth Pairing:

1. Press and hold the multi-function button for 6 seconds. The LED indicator will flash blue and red indicating the device has entered pairing mode.
2. Activate the Bluetooth function on your mobile device and select "Boom" from the listed devices.

Answering Calls:

1. Short press the multi-function button to answer an incoming call after bluetooth pairing has been successful.
2. During a call short press the multi-function button again to end the call.
3. To call back a number previously dialed, short press the multi-function button 2 times to redial the last active caller's number.

Charging the Boom:

- Insert the Micro-USB charging cable into the charging port and connect the opposite end into a Computer USB port or an AC wall adapter.
- The LED indicator will light red while charging, and become blue when fully charged.

Volume Up or Previous Track:

- Short press "+" to increase the volume
- Press and hold "+" to go to the previous track

Volume Down or Next Track:

- Short press "-" to decrease the volume
- Press and hold "-" to go to the next track

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Caution: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
