

ANKR is a technology suite developed by Bleon to track and manage business and personal assets that are important. From its first product, the detachable ANKR dongle for tracking users' personal items such as keys or laptops bags in concert with a smartphone app, the ANKR ecosystem has grown to include the ability to add functionality such as real-time monitoring of the direction of movement, temperature, vibration and humidity of high-value portable and fixed high-value assets.

ANKR is a small Bluetooth Smart device that lives with your bag or keys and communicates with a simple app on your smartphone to let you know when you're about to leave something behind...or to help you find it when you have.

Easy to use mobile app included

You can set up ANKR's free app for iOS in less than a minute.

Your ANKR will alert your phone if you leave an item behind.

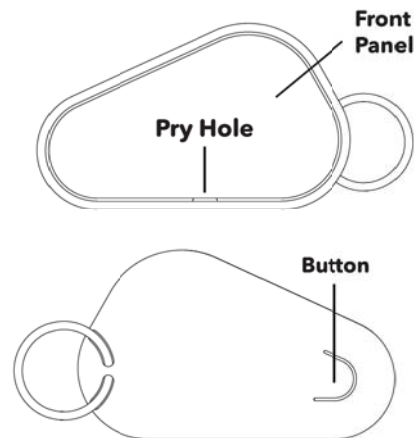

HOW BLUETOOTH SMART POWERS ANKRS

ANKRs use the new Bluetooth Smart technology (also called Bluetooth low energy or BLE) to send a silent radio signal to the ANKR app on users' smartphones. If users are near their ANKR-tagged items, nothing happens. However, if the user leaves an item behind, the app senses that the ANKR is too far away and sends an audible alert and a pop-up notification.

Because Bluetooth Smart uses 99.99% less energy than older versions of Bluetooth, using ANKR won't drain users' phones. It also enables an ANKR to run for up to a year on a single coin cell battery.

How to set up your ANKR

1. Install the ANKR mobile app to your mobile device from the app store or visit: app.ankr.com
2. Turn on the ANKR for the first time by press the button (A) on the back of the ANKR until you hear two beeps.
3. Launch the mobile app and keep the ANKR you within 6 inches of your mobile device as you follow the instructions in the app to finish setting up your ANKR.

How to replace the battery

To replace the battery, you will first need to remove the front panel.

1. Insert the corner of the included ANKR Pick into the pry hole and gently pry open the front panel until it is free of the base.

The pry hole is located in the middle of the bottom edge of the front panel.

Note: We do not recommend using a screwdriver to pry open the device as it may dent the plastic base or damage the electronics inside.

2. Carefully remove the battery and replace it with a new CR 2025 battery with the + side up.

3. To reassemble, align the front panel and gently press down around the edges until each of the clips are securely fastened and the panel is flush with the base.

Your ANKR will automatically resume functioning.

Note: If the battery is not seated properly, you may damage the battery contacts or the front panel will not close properly.

Warranty Policy

Note - based on European Union Law only - the local laws of member states with the EU may impose additional protections for the consumer in the relevant jurisdiction. Further information on specific countries can be provided if required.

ANKR hardware one (1) year Worldwide Warranty

Bleon, LLC 1312 5th Ave N., Nashville, TN 37208, USA warrants that your ANKR hardware product ("the Product") will be free from defects in materials and workmanship for a period of one (1) year from the date of delivery to the original retail purchaser ("the Warranty Period"). If a defect in the Product arises within the Warranty Period, Bleon will, at its sole option and subject to applicable laws: (a) repair or replace it with a new or refurbished product or component; or (b) refund the original purchase price upon return of the defective Product. This Warranty does not apply where the instructions for use and activation of the Product are not complied with or where the Product is damaged as a result of abuse, accident, modifications or other causes that are not defects in materials or workmanship. Bleon is not responsible for any consequential, incidental, exemplary or special damages, including any damages for replacement of lost or damaged objects or lost profits, arising from the use of the Product. Bleon's total liability arising from the use of the Product or the ANKR hardware (1) year Worldwide Warranty will not exceed the original purchase price of the Product by the original retail purchaser. This Warranty is in addition to your legal rights in relation to the Product.

FCC Compliance Statement

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions. (1) This device may NOT cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

iBeacon Compliance
