Technical specifications

Mode: SC-21
Bluetooth Version: CSR 4.0
Related voltage: 3.7V
Battery: Lithium-ion battery, 3.7V/1, 500mAh
Charge voltage: 5V
Charging time: 4 hours
Maximum output power: 3W x 2
Weight: 420g
Dimensions: D66 x H200mm
Operation Temperature: 0°- 45°C
Operation range: 10M
Channels: Stereo
Signal to noise ratio S/N: ≥80dB
Frequency range: 180Hz-20KHz
Distortion THD: ≤ 1%
Transducers: 2 x 40mm full frequency

Troubleshooting

Bluetooth Speaker can not be turned on
1. Make sure the Bluetooth speaker is fully charged and can be searched.

Can not pair with the Bluetooth device

1.Ensure the speaker is in connecting mode. Bluetooth status Indicator blinks blue.
2.Ensure Bluetooth is enabled on your Bluetooth device.
3.Your device may be out of range. Try moving it closer to the speaker.
4.Turn the device off and back on, and connect it to the speaker
5.If possible, turn off all other nearby Bluetooth devices or disable their Bluetooth functionality
6.Clear the speaker memory. Pair and connect the device to the speaker again.
7.Reset the speaker. Press and hold mute on the speaker for 10 seconds until all status indicators briefly illuminate and the speaker turns off. Turn the speaker on again, and connect your device.

No Sound

1.Ensure the device you want is connected to the speaker and playing audio.
2.Ensure the speaker is not muted and the speaker volume is turned up
3.Turn up the volume on your device
4.Your device may be out of range. Try moving it closer to the speaker.
5.Move your device away from any device that generates electromagnetic interference, such as another Bluetooth device, cordless phone, microwave oven, or wireless router.

ESOTICA

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

—Reorient or relocate the receiving antenna.

—Increase the separation between the equipment and receiver.

—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

—Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions:
(1) this device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
