

## Charging

To charge the speaker, connect the USB cable directly to a PC or laptop or to a mains USB charger. The LED indicator on the speaker will turn red when charging. The LED indicator will turn off once the battery is fully charged.

The speakers can be used while being charged( speaker is on, connect with 3.5mm line-in cable), the LED indicator will flicker blue and red.

Full charging time for a flat battery is 3~4 hours.

## BLUETOOTH connecting

Make sure the 3.5mm line-in cable is not connected.

Connect the speaker , Turn the Main speaker ON. You will hear a special tone to indicate Bluetooth functionality, the LED indicator will flicker blue.

On your phone or laptop search for a new Bluetooth device called “ BT Speaker”.

If you are asked for a password enter ‘0000’.

## WIRED connecting

Connect the line-in cable to your audio source on one end and to the speaker using the USB port on the other end. Turn the main speaker ON. Start playing music.

When the line-in cable is connected, the Bluetooth module is disabled and audio is then routed to the speaker through wires .

- Bluetooth Protocol : 4.0 +EDR(support A2DP)
- Transmission Distance : Up to 10 meters(open space)
- Line Input : Φ3.5mm
- Battery Voltage : 3.7V
- Charging Voltage 5V
- Power Input Mini USB (5V/500mA)

## **Federal Communications Commission (FCC) Statement**

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

**Note:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**Warning:** Changes or modifications made to this device not expressly approved by **SUNstone Digital Limited** may void the FCC authorization to operate this device.

**Note:** The manufacturer is not responsible for any radio or tv interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.
