INSTRUCTION MANUAL

WHAT'S INCLUDED:

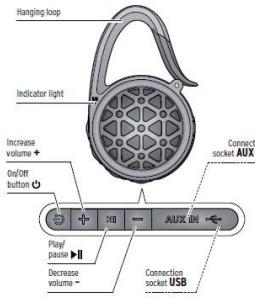

- Bluetooth® Speaker
- USB Charging cable
- 3.5mm audio cable
- User manual

FEATURES:

1. Operating distance up to 10 metres / 33 feet
2. Charging time: approx. 2 hours
3. Playback time: approx. 8 hours(depending on volume, surrounding conditions,etc.)
4. 3.5mm line-in
5. The device is protected against splash water when the protective cover is closed. However, do not immerse the device in water or other liquids, as this could damage it.

COMPONENT IDENTIFICATION

1. Hanging loop
2. Indicator light
3. Increase volume +
4. Decrease volume -
5. On/Off button
6. Play pause
7. Connection socket AUX IN
8. Connection socket USB

Prior to first use

To avoid damage to the rechargeable battery, it is only half-charged when supplied. Before using for the first time charge the battery until the red indicator light goes out.

Charging the battery

You can charge the speaker's rechargeable battery using a computer. We have enclosed a USB charging cable for this purpose.

1. Make sure that the speaker is switched off.
2. Open the protective cover.
3. Connect the speaker to a computer.

The indicator light lights up red. The usual charging time for a flat battery is approx. 2 hours. Once the rechargeable battery is fully charged, the indicator light will go out.

The playback time(depending on volume, environmental conditions etc.) is approx. 8 hours. You can use the speaker while it is charging. However, this will increase the charging time.

- The rechargeable battery needs charging when the indicator light flashes red.
- To preserve the rechargeable battery's full capacity for as long as possible, you should recharge the battery every 2 months, even if you do not use the speaker.
- Charge the battery in an environment between +10 and +40°C
- The battery will best hold its charge at room temperature.
- The lower the temperature, the shorter the battery life.

Automatic switch-off function

To avoid unnecessary power usage, the speaker has an automatic switch-off function that turns the speaker off if it has not received a Bluetooth signal for 10 minutes or if no music is played on the mobile device for more than 30 minutes, even when there is a Bluetooth connection.

If a playback device is connected via AUX IN, the device will not switch off automatically.

Connecting to a Bluetooth® device

- You may be required to enter a password. If so, enter 0000.
- Always refer to the instruction manual for your mobile device.

1. Switch on your mobile device.
2. Switch on the Bluetooth function on your mobile device.
3. Start the device scan on your mobile device.
4. Turn on the Bluetooth speaker. Press and hold the on/off button to do so. Two short beeps will sound and the indicator light will flash blue quickly. The speaker will now search for available Bluetooth connections.
5. On your mobile device, select HRSP 589G (grey color) / HRSP 589BU (blue color) / HRSP 589T (Teal color) from the list and connect the devices. Once the devices are connected, a short beep will sound and the indicator light flashes blue slowly.

If you would like to switch off the speaker for a while, it will automatically connect with the Bluetooth device again once it is switched back on, provided that the device is close by, switched on and the Bluetooth function is activated. A short beep will sound once the Bluetooth device has been found

Bluetooth : Playing music

The speaker can play back music in all standard file formats supported by your playback device. The speaker also supports the new A2DP transmission standard. This standard, which is supported by most current smartphones, has been specially developed for the wireless transmission of stereo audio signals via Bluetooth.

- It may be necessary to manually activate the transmission mode A2DP on your smartphone. Refer to your smartphone's operating instructions for more information about this.
- Depending on the smartphone, play-back may not resume automatically from the speaker. In this case, start playback manually. Pausing and resuming audio playback will then function with every device.

a) Start playing music by opening the relevant function on your smartphone.
b) To pause or stop playback, briefly press **▶||** on the speaker.
c) To resume playback, briefly press **▶||** on the speaker.

AUX IN : Playing music

You can connect mobile playback devices that do not have a Bluetooth function directly to the speaker using the audio cable supplied.

Also refer to the instruction manual of your playback device.

1. Turn off the playback device which is to be connected to the speaker and turn the volume down low.
2. Open the protective cover.
3. Connect the supplied audio cable to the AUX IN connection socket on the speaker and to the audio output socket on the playback device (this is usually marked with a head-phone symbol or the word phone) The indicator light on the bottom of the speaker lights up and stays blue.

Understanding the LED light status

When charging your speaker

Solid RED LED = Charging

RED LED off = Charging complete

When pairing your speaker to Bluetooth® audio source

Quick Blinking Blue LED = Bluetooth® not connected (ready to pair.)
Solid Blue LED = Bluetooth® connected

When connect your speaker via AUX cable with audio source
Quick Blinking Blue LED = Aux not connected
Solid RED LED = Aux connected

Technical specifications

Model: 8050189/8050190/8050193

Rechargeable

battery: 1 li-polymer/3.7V/600mAh

Chargingtime: approx. 2 hours

Playbacktime: approx. 8h (depending on volume, surrounding conditions, etc.)

Amplifier

Connection
jack: 3.5mmstereojack
Output: 2W
Bluetooth®
Version: V4.0/Bluetooth V2.1+EDR (A2DP, AVRCP)
Range: max. 8.0 m

Ambient
Temperature: + 5 to +40°C

Note: This speaker is in compliance with the specified Bluetooth version. It does not guarantee compatibility with all the functions on every Bluetooth enabled device. Please check your mobile phone's user manual for compatibility and functionality.

TROUBLESHOOTING

No Sound:

- Ensure the speaker is charged and has enough battery power for operation.
- Ensure the speaker is switched ON.
- Ensure Bluetooth device is ON.
- The volume of the speaker is too low, adjust the volume to an appropriate level.

WARNING: changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

THE FCC WANTS YOU TO KNOW

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions:

- 1) This device may not cause harmful interference and
- 2) This device must accept any interference received, including interference that might cause undesired operation.

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Industry Canada Notice

This device complies with RSS-247 of Industry Canada. Operation is subject to the following two

Conditions:

- 1) This device may not cause interference, and
- 2) This device must accept any interference, including interference that may cause undesired operation of this device.

This digital apparatus does not exceed the Class B limits for radio noise emissions from digital apparatus set out in the Radio Interference Regulations of Industry Canada.

IC Numbers:

THE SOURCE-WARRANTY

The source warrants that this product will be free from defects in materials and workmanship for a period of 12 months from the date of purchase. Within this period, simply take the product and your proof of purchase to any the source store or participating dealer and the product will be replaced (where available) without charge. Any product which has been subject to misuse or accidental damage is excluded from this warrant.

FCC Caution.

§ 15.19 Labelling requirements.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

§ 15.21 Information to user.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

§ 15.105 Information to the user.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

* RF warning for Portable device:
The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
