The screenshot shows the 'Account setup' screen with the title 'Email account'. Below the title, it says 'You can set up email for most accounts in just a few steps.' There are two input fields: 'Email address' and 'Password'. To the right of the 'Email address' field is a button labeled 'Manual setup'. To the right of the 'Password' field is a button labeled 'Next'. The bottom of the screen shows an Android navigation bar with icons for back, home, recent apps, volume, and power, along with a status bar showing the time as 2:24 and battery level.

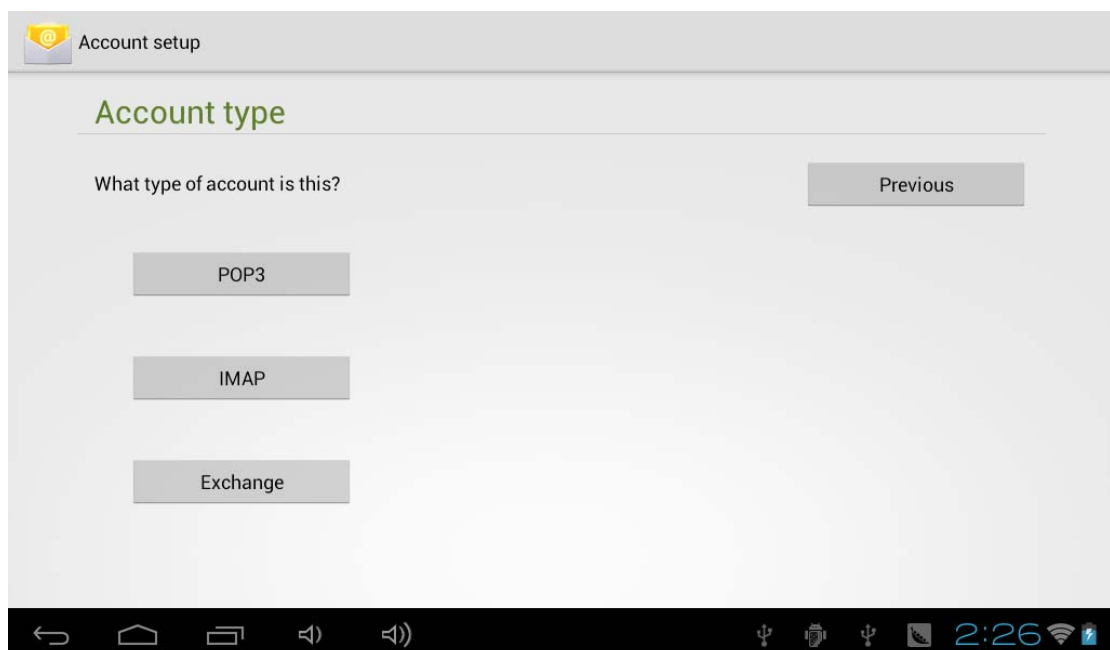

E-mail require network support, please email links to ensure normal.

Here we dadahacker@126.com Case:

dadahacker@126.com(Enter the email address bar inside your valid e-mail address: dadahacker@126.com).

In the Password field enter your valid password: 123456789.

You can then select the "Next", select the account type interface appears as shown below:

The screenshot shows the 'Account setup' screen with the title 'Account type'. Below the title, it asks 'What type of account is this?'. There are three buttons: 'POP3', 'IMAP', and 'Exchange'. To the right of the 'POP3' button is a button labeled 'Previous'. The bottom of the screen shows an Android navigation bar with icons for back, home, recent apps, volume, and power, along with a status bar showing the time as 2:26 and battery level.

Here we are using a POP3 account type. Appears to accept the server after setting

the interface as follows:

The screenshot shows the 'Incoming server settings' screen of an email client setup. The title bar at the top says 'Account setup' with an '@' icon. The main heading is 'Incoming server settings'. Below it, there are several input fields: 'Username' with the value 'dadahacker@126.com', 'Password' with masked dots, 'POP3 server' with 'pop3.126.com', 'Security type' with a dropdown menu showing 'None', 'Port' with '110', and 'Delete email from server' with a dropdown menu showing 'Never'. To the right of these fields are two buttons: 'Previous' and 'Next'. At the bottom of the screen is an Android-style navigation bar with icons for back, home, recent apps, and volume, along with a status bar showing the time as 2:27 and battery level.

Please e-mail providers, each based on the information, set different parameters, such as:

POP3 server: The system default is "126.com", should be amended to "pop.126.com"

Port number "110"

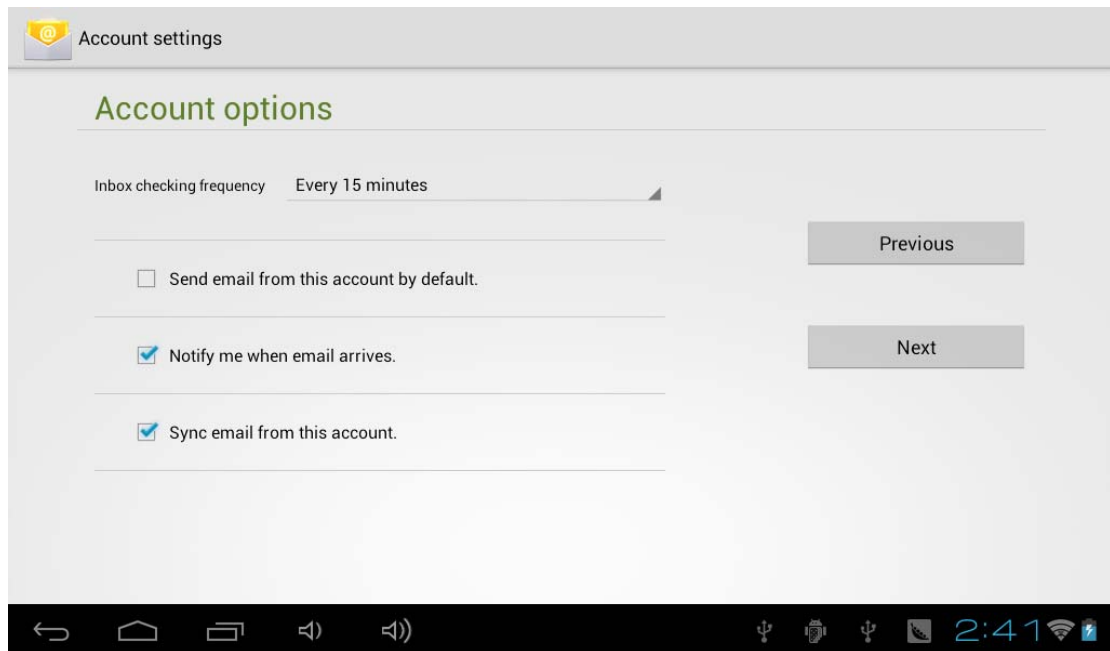

Then select "Next", will enter the "Check to accept the server settings", if set correctly, there will be "outgoing server settings" interface as follows:

The screenshot shows the 'Outgoing server settings' screen of an email client setup. The title bar at the top says 'Account setup' with an '@' icon. The main heading is 'Outgoing server settings'. Below it, there are several input fields: 'SMTP server' with 'smtp.126.com', 'Security type' with a dropdown menu showing 'None', 'Port' with '587', and a checkbox labeled 'Require sign-in.' which is checked. Below these fields are two buttons: 'Previous' and 'Next'. At the bottom, there are fields for 'Username' with 'dadahacker@126.com' and 'Password' with masked dots. At the bottom of the screen is an Android-style navigation bar with icons for back, home, recent apps, and volume, along with a status bar showing the time as 2:30 and battery level.

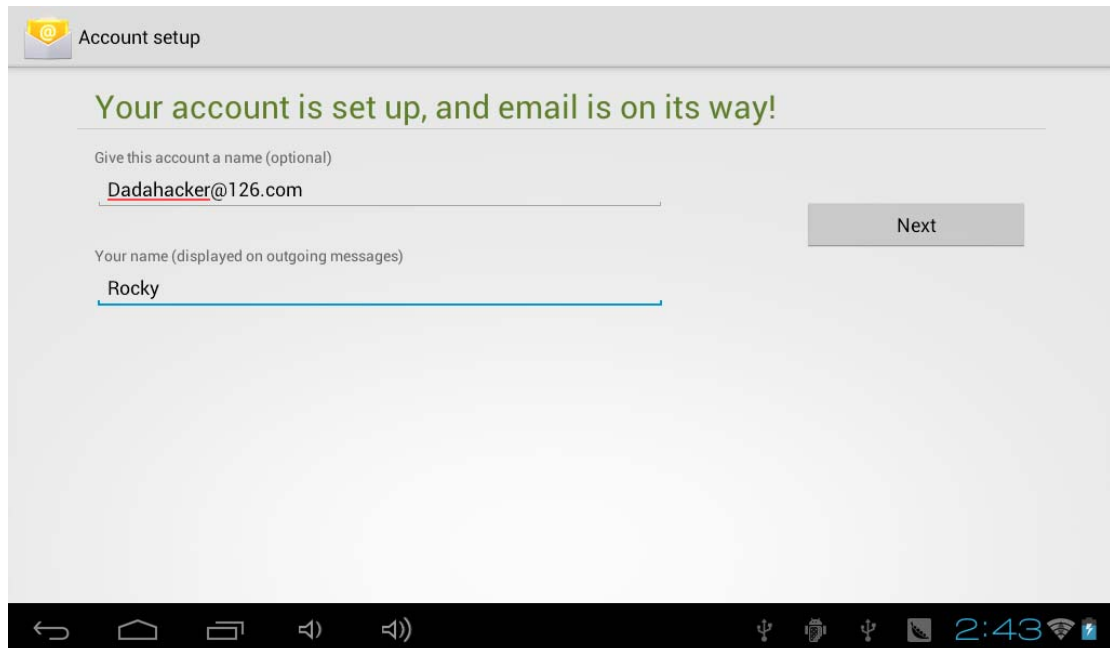

sed SMTP server "126.com" as "smtp.126.com"

Modify the port number "587" to "25"

Drag the scroll bar, select "Next" and enter "Check outgoing server settings" interface. If the settings are correct, will enter the following interface:

Select "Next", you can enter the account information to customize the interface:

In the "Your Name" enter the bar you want to show the name of outgoing mail, enter here: Rocky
