VI. WARRANTY

This limited warranty does not affect the Consumer's statutory rights under law. THECOO maintenance is based on the original invoice & cash receipt that was provided by dealers with complete purchasing date, dealer name and product model. The warranty period is 12 months from the date of original purchased. (Main parts' maintenance would be 24 months: PCB board, drives). This limited warranty does not cover:

1. To alter the purchasing vouchers without permission. (can not be identified).
2. Product model or serial number was removed, altered and different from the product type certified. (can not be identified).
3. Product that has been damaged due to repairs, reinstallation and modification by unauthorized service organizations or persons.
4. Been used for commercial purpose.
5. Damages caused by wrong operation, or operate under an unworkable environment which was not recommended.

VII.WARNING

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit

different from that to which the receiver is connected.
• Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
