Dear Sir/Madam,

Re: Product Certification Representative Authorization Letter

We, Beijing BBEF Science & Technology Co., Ltd. hereby authorize SIEMIC, Inc. to act as a Certification Body for certifying for the following project(s):

Product Name: 1.3kW ATSC TV transmitter

Model No.: BGTDV 31610

Product description: The 1.3kW ATSC digital TV transmitter is used for transmitting the TV programs received from studio or TV station to the antenna for broadcasting. The transmitter is mainly composed of exciter, switching amplifier, power splitter, power amplifier, power combiner, band-pass filter, collection and control unit, central control unit and power distribution unit. The working principle is that the input TS signal of received programs, after encoding and modulation of exciter, becomes required digital base band signals, which are directly up-converted to RF signals and amplified phase by phase to finally reach output power of digital 1.3kW.

FCC ID: 2AEMGBBEF2015042301
