Address : 13/F west, A3 Building, ChuangXinShiJie.ZhongTai Information Technology Industrial Park, ShiLong

Community, DeZheng Road No.2, ShiYan Street, Bao'an District, ShenZhen, GuangDong 518108,China

## Functions and Features

- High sensitivity
- Detects a pin within 30 to 60mm
- Conveniently and simply to operate
- Easily to adjust

When battery voltage drop from 9 to 7V, detecting distance remain unchanged

Energy smart: can work 40 hours continuously

Except the light alarm, audible alarm and the vibratory alarm can be chosen

When the battery nearly dies, audible alarm or vibratory alarm should be a warning

Turn on (off) the detector, it will give you an audible alarm or a vibratory alarm

There are also two sensitivities, high and low, to select

Rechargeable: charge it about 4-6 hours after the battery die

Self-checking: it self-checks when it starts

Using ABS, durable

Product size	415mm x 85mm x 45mm
Package Size	420mm x100mm x 50mm
Working frequency	33 KHz
Alarms	sound (or vibration) and light
Power supply	Standard 6F22/15F8H 9V battery or rechargeable battery (optional)
Temperature	-15 °C to +55 °C
Packing	25/box 13.3kg/box

## Applications

**Security check:** avoid carrying contraband, such as knives, guns and more

**Factory:** avoid valuables losing

**Education:** avoid cheating, prevent from carrying cheating tools, such as phones, electronic Dictionary and more when examine

Ultimate sensitivity:

38 pistol: 20cm

Little knife: 15cm

Blade: 10cm

Coin: 8cm

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
