CET-926 multimedia wireless Bluetooth speaker integrates the sound and the amplifier of multiple channels into a single cabinets. Each channel has independent cavity to ensure good isolation and resolution,which brings you into perfect HiFi sound enjoyment. At present, thelatest important digital technology in speaker is as follows:

1.Integrated home audio broadcast platform, AUX audio input;

2.Dual speakers, dual-channel, a speaker can handle a separate home theater sound field positioning effect.

3.Built-in Bluetooth program, supporting A2DP V1.2, AVRCP V1.4 profiles agreement. As a pursuit of the perfect sound quality Bluetooth speakers, we not only keep the traditional speaker characteristics, take account the sound quality, but also integrate into a stylish design. Bluetooth 4.0 10m accessible connection, especially let you enjoy wireless good life.

Accessories

1 X Bluetooth speaker

1 X 3.5mm Audio line

1 X Micro USB Charging cable
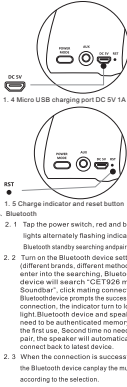

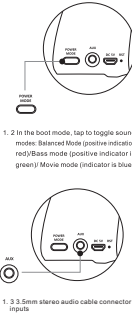

1 X Certificate

1 X Instruction

Connections

1.Bluetooth connection: connect with existing Bluetooth-enabled mobile phones, computers, tablets, etc.

2. Audio connection: 3.5mm audio interface, support external AUX audio input.

The product parameters

Model	CET-926
Effect Mode	Red:Balance Audio; Green: Super-Bass; Blue:Cinema-Surround
Specialty	With two connect mode: Bluetooth, AUX Bluetooth connectivity, audio line input and other broadcast modes
Bluetooth Version	3.0+EDR
AUDIO OUTPUT POWER	5W×2 THD<0.5% 5W harmonic distortion <0.5%
Input power	5V Micro USB port charging
Speaker specification	1.5nches in diameter bonded NdFeB permanent magnet materials of high quality speakers; 4Ω 5W
Frequency Response	50Hz~20KHz
SNR	S/N≥85db
Battery	Built-in 2200mA/3.7V Power lithium battery
Portable design	Portable
Working Distance	10 Metres
Weight	about 460g
Overall Dimension	270*60*50mm
Package Size	315*100*80mm
Operating Temperature	0℃~40℃
Operating humidity	5%~85%,RH
Storage Temperature	-20℃~60℃
Storage Humidity	5%~95%,RH

Instructions

1. key description

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

– Reorient or relocate the receiving antenna.

– Increase the separation between the equipment and receiver.

– Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

– Consult the dealer or an experienced radio/TV technician for help.

You are cautioned that changes or modifications not expressly approved by the party responsible for compliance could void your authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and

(2) this device must accept any interference received, including interference that may cause undesired operation.
