Bluetooth matching steps 1

1. Please keep as close as possible from Bluetooth headphone to mobile phone (or other connecting devices) within 1 meter.
2. Make sure the headset in the off state, press the multifunction key for about three seconds until the red / blue lights flashing alternately, this time into the pairing state, waiting for a connection;
3. Open the user's mobile Bluetooth function and search or scan, which will find all of the closed Bluetooth devices. Then click the headphone name JOAW H-07 and enter code 0000. after connected successfully, the headphone will turn to blue light blinking which means matched finished. Now you can listen to the phone music and take a phone call.

Warm Prompt:

1. Mobile already matched will no need to match again, the headphone will automatically match the previous device and make connection.
2. There are some phones after matching connection, they still need to choose headphones service function. If the cell phone bluetooth version is 2.1 or higher, when matching, you don't need to pair password (0000).
3. The maximum of matching time is 240 seconds. If you exceeded such time it will drop out the matching status. If you still can't match successfully, Please repeat the pairing procedure to connect again.
4. The headphone will automatically shut down when it being no-connection over 6 minutes.
5. Built-in three kinds of sound effects can be switched headphones.

Bluetooth matching steps 2

Matching 2: One with two function(connect two bluetooth devices at the same time)

1. Ensure the headset has already connected the first mobile phone(already had the connect memory)
2. The headphone volume up, volume down key while pressing for about 3 seconds to let go(Need to let go). Activate another mobile phone bluetooth function and searching for bluetooth device, select JOWAY H-07 and matched (as the first matching connection method)
3. Open the first mobile phone bluetooth function, click and connect the type of JOWAY H-07 which has the connect memory, at this time, JOWAY H-07 already connected with two mobile phones, one with two function.

Steps of connecting computer

First download a universal driver software. Installed successfully , you will have a little gray icon (Bluetooth icon) in the bottom right corner of your computer. Then plug in the Bluetooth adapter, at this time, the gray Bluetooth icon will turn to blue. Note: notebook computer with Bluetooth function does not need external Bluetooth adapter which need to buy separately. Right click on the (bluetooth icon), select "show the classic interface" When the bluetooth headset turned off, press the multifunctional key long, until red and blue lights flashing (matching), headset has entered the searched state at this time.

Right click on the computer interface, select the "search" equipment, the headset must be in pairs (red and blue lights flashing), then the computer will search for all nearby bluetooth devices. Double-click the computer and search for JOWAY H-07 bluetooth headset. Right-click the JOWAY H-07 and select "bluetooth audio high quality", enter the password "0000" (0000) initial passwords. Here, congratulations, bluetooth headset has been successfully connect with computer, and now can listening to the music and voice chat from computer!
