RESET <ul style="list-style-type: none">• Make sure that Insmys-I3 are fully charged and the case is open throughout the process.• Unpair/forget the earbuds from the 'saved devices' on your Bluetooth settings.• Place both the earbuds inside the case.• Open the charging case.• Long press the button on the charging case for 10 seconds while it's charging. Note: The 4 LEDs will flash in white 5 times indicating that the earbuds are reset. CHOOSING YOUR EAR TIP SIZE <p>Earphones are fitted with medium-size tips. However, if you find they don't fit perfectly, please remove and try the small and large ear tips. Follow the images and chart to learn how to wear the earbuds in the right manner.</p> 	SMART SOUND FEATURES HYBRID ANC <p>The Insmys-I3 feature 3 advanced microphones on each earbud that capture ambient/environmental noises. These noises are processed by the hybrid noise-cancellation system that equalises them before they reach your ears, making sure that you get the best sound. Long press the right earbud for 2 seconds to enter the ANC mode</p>  TRANSPARENCY MODE <p>Transparency mode ensures that you get to hear the outer sounds and know what's going on around you, without affecting the quality of what's being played on your earbuds. Long press the right earbud for 2 seconds to enter transparency mode from the ANC mode.</p> 	How to clear the product memory of connected Bluetooth devices? <p>Put the earbuds into charging case without closing the lid, long press 8 seconds to clear the paired Bluetooth device records.</p> Clear successfully <p>4 lights will turn off after 3 seconds</p> Failed <p>4 lights flash 10 times then go out.</p> 	 <p>This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.</p> <p>This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:</p> <ul style="list-style-type: none">– Reorient or relocate the receiving antenna.– Increase the separation between the equipment and receiver.– Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.– Consult the dealer or an experienced radio/TV technician for help. <p>Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.</p>

When the wireless earbuds are connected to the phone, adjusting the volume of the phone only increases the volume of the audio source. If the volume of the earbuds are not adjusted, music still low sound. The earphones volume need to be turned up through tapping the earphones.</p>	WARRANTY <p>The warranty covers your Insmys-I3 product, including accessories against manufacturing defects (if any) for 1 year from the date of purchase.</p> Things that are not covered in the warranty <ul style="list-style-type: none">• Unauthorized tampering, modifications or repairs of the product.• Physical damage of the product on the account of abuse, handling, storage, installation or testing including any use that is not in accordance with the product manual or documentation, or any other instruction provided along with the Insmys-I3 product.
