Re: FCC ID: 2AF28BR001

To Whom It May Concern:

The following application is submitted on behalf of our client, Clorox Services Company, for evaluation of their model 0B54 for a Class II Permissive Change certification under FCC Part 15.247.

The 0B54 is an 802.11b/g/n capable transceiver. The purpose of this Class II Permissive Change is to add a ceramic chip antenna to the pre-approved module.

The 0B54 was tested to the requirements of the aforementioned rules and was found to be in compliance.

Sincerely,

A handwritten signature in black ink that reads 'R. Sam Wismer'. The signature is written in a cursive, flowing style.
