Here, congratulations to you, the connection is successful and you can listen to music and video.

1 for 2 multi-point function connection steps

1. When the Bluetooth headset is on turned off state, Long press the MFB for about 6 seconds, until the headset indicator appears red and blue lights flashing alternatively, entering into the search pairing state.
2. Turn on the Bluetooth of mobile phone #1 and search for the Bluetooth earphone name, then click to complete the connection.
3. Turn off the mobile phone #1's Bluetooth and long press the earphone MFB till the red light on to turn off the Bluetooth earphone.
4. Turn on the Bluetooth earphone again enter into searching and pairing state.
5. Turn on the Bluetooth function of mobile phone #2, Searching for the Bluetooth device and find the earphone name, click to complete the connection.

6. Turn on mobile phone #1's Bluetooth function and find the connected Bluetooth earphone before, Click connection to complete 1 for 2.

Keep your Bluetooth earphone to be used around your phone. The straight without black Bluetooth distance is about 10 meters between your phone and Bluetooth earphone. Beyond this distance, its sound quality may decline and lose connection.

Learn how to reconnect the headset:

1. Your Bluetooth earphone will try to reconnect the disconnection automatically.
2. If your Bluetooth earphone does not try to reconnect, Please press the MFB one time or through your Phone's Bluetooth menu to reconnect manually.

Restore the factory Settings

1. Hold the MFB for about 3 seconds when charging, till the red and blue lights flashing three times to restore factory Settings.

Common problems and solutions

1. Mobile phone can't search the Bluetooth earphone

Solutions:

- ① To confirm if the Bluetooth earphone is turned on. (Whether the indicator light is on or Red and Blue light flash alternately)
- ② If the Bluetooth earphone is turned on but still can not be searched, please to restart your mobile phone and the Bluetooth earphone

2. After connecting the Bluetooth earphone with your mobile phone, there is always disconnection or noise.

Solutions:

- ① The Bluetooth earphone is power low, please to charge the earphone soon.
- ② There is block between the Bluetooth earphone and your mobile phone or it beyond the signal distance. Also, please do not cover the Bluetooth earphone by your hand. To keep signal stable, please keep your phone and the earphone in the same direction.

Manufacturer: Longwang Group Limited

Harbin Street, White Road, Hengxing Shipi Unit 3, Building A, Phase 1314, Longgang District, Shenzhen City, Guangdong, China

3. When Using, the Max distance between Bluetooth earphone and mobile phone or adapter

The available distance between Bluetooth earphone and mobile phone or adapter is 10M. Generally speaking, the result is the best when there is block between them. When it reaches the distance limit, there is light noise when calling.

4. What's the Bluetooth pairing password?

Answer:

The Bluetooth pairing password is 0000, most phones support enter password 0000 manually.

5. The red light is not on when charging

Possible reason: It is long time not to use the earphone
Solutions: It needs to charge about 30 minutes, then the red light might be bright
Note: Overcharge or keep Bluetooth earphone in a closed car etc. such similar environments, it will reduce the capacity and life of the battery.

Charge the headset

The headset has a high-performance polymer rechargeable battery. Before you use the headset the first time, you must charge the battery full; the output voltage and current of the charger shall conform to 5V, 100mA-1A.

Notes:

When using bluetooth, the headset shall be possibly close to the mobile phone, and cannot be too far away. Metal or other objects which will influence the wireless signal shall not be existed between the mobile phone and the bluetooth.

The using effect of the headset will be influenced if the headset is used in strong signal such as large-power wireless wifi.

Above part-function depends on the support of different Bluetooth devices to achieve. If different brands of Bluetooth devices support different agreement, different menu function etc., the use and function of the headset would be different.

Warning:

1. The headset uses a built-in rechargeable battery with non-removable. Do not attempt to remove the battery from the headset, to avoid danger or damage to the headset.

2. Pls use the original charging cable which is provided by headset manufacturer for charging, and choose USB port of computer or regular brand mobile phone charger that is in accord with 5V voltage, 100mA-1A or less than 100mA-1A current to charge. If you use over this voltage and current charging device for charging, it will damage the headphones, even dangerous.

3. Pls follow the use regulations, due to improper use of the users cause damage to the headset and the danger that shall be borne by the operator. Our company will accept no liability.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/TV technician for help.
- Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment. This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The device has been evaluated to meet general RF exposure requirement. This device can be used in portable exposure condition without restriction.
