

1. Download the product's game app at mobile device (e.g. App Store on iPad)

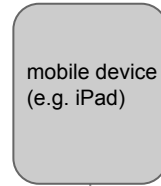

2. Run the game app. Make sure Bluetooth is "on" at the mobile device.

Bluetooth 4.0

3. Place a NFC tag-embedded toy on Ashikor and see the toy's game character "comes to life" in the app for you to play

Bluetooth 4.0

The product and its packaging does not contain a user manual. Because the website and the game app (e.g. iPad app) will properly instruct customers on how to play with this toy.

1. For our product release, customers buy this product directly from a website which will instruct customers to download the product's game app from their mobile device's app store (e.g. App Store on an iPad).
2. Then the app will instruct customers to turn on the Bluetooth function on their mobile device. The app will inform customers whether their mobile devices are successfully connected with Ashikor via Bluetooth 4.0.
3. Then, the app will instruct customers to place a NFC tag-embedded toy on Ashikor. So that customers can play the toy's game characters in the game app. Customers can change their game characters by changing the toy on Ashikor.

**FCC STATEMENT**

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference.

(2) This device must accept any interference received, including interference that may cause undesired operation.

2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help.

FCC RF warning statement: The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
