Quick Start Manual

1 YOUR DEVICE innoBand-O

Module

2 WELCOME TO A WORLD OF ACTIVITY

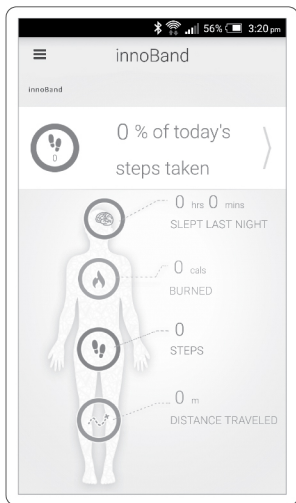

Welcome to your **innoBand-O**, a simple and stylish activity-tracking device that monitors your daily activity around the clock. It tracks the **STEPS** you take and the physical **DISTANCE** you travel, as well as calculates the **CALORIES** you burn through your activities. It also has a **SLEEP-QUALITY** monitoring function, ensuring that you can follow your regular sleeping patterns and work on improving them for optimal health benefits.

Synchronize your module with your innoBand mobile application, set your targets, and focus on achieving them. If you're up for a challenge, challenge yourself by setting higher targets each day through your mobile application, and focus on completing them.

The world of improved fitness and health is always in your hands. Or in the case of an innoBand, supporting you all the way on your wrist or body.

innoBand app

SETUP

Before you can start using your innoBand-O, you must download an **innoBand app** on a compatible mobile device, and pair the module with the mobile app.

1) Go to www.innowear.hk/software or scan the following QR code :

2) Download the correct app for your compatible mobile device (iOS / Android)

3) Launch the app and follow the instructions on the mobile device screen. The app will scan for your innoBand-O module via Bluetooth automatically.

NOTE: Until you pair your mobile device and complete the setup process, the module will have limited functionality.

REPLACING BATTERY

1.
Rotate the battery cover
anti-clock wise to open the cover

2.
Remove the cover from the
device and remove battery and
replace with a new CR2032 3V
coin cell battery

3.
Put the battery cover back in
the device and rotate clockwise
to close the cover

FCC NOTE:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device must not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

THE MANUFACTURER IS NOT RESPONSIBLE FOR ANY RADIO OR TV INTERFERENCE CAUSED BY UNAUTHORIZED MODIFICATIONS OR CHANGE TO THIS EQUIPMENT. SUCH MODIFICATIONS OR CHANGE COULD VOID THE USER'S AUTHORITY TO OPERATE THE EQUIPMENT.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

RF exposure statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
