NEW GENERATION

**BLUETOOTH®
SPEAKER**

MANUAL

Carefully read operate manual to use this unit properly, and keep this manual handy for future reference.

Features

- Bluetooth® Speaker
- Built in MIC for hands free talking
- Charging cable Included
- Built in Rechargeable Battery

Power supply for Unit

- To charge the built in battery, connect one end of the supplied cable to the Micro USB jack and other end of the cable to USB power outlet (5V adaptor not included).
- For best results, please make sure the built in battery is fully charged before use.
- While the unit is charging, the red LED light will be on. Once it's fully charged, the color will change to blue.
- Please charge the unit before using

How to operate the Earphone

1. Turn ON the unit by long pressing the "▶||" button, you will then hear the message "POWER ON". Continue pressing the button and a Blue Led light will start flashing, you will hear the message "pairing".
2. From your Bluetooth® enabled device scan for "LI-S20254BT" and pair it. After pairing is done, your earphone is ready for use with your Bluetooth® enabled device.
3. To adjust the volume, short press the button (-) to lower the volume or press (+) to raise the volume. The volume can also be controlled from your external device.
4. The Sound Output Quality of the unit will depend on the quality of the MP3 files and distance of unit from the Bluetooth® enabled device.
5. To change the track from your earphone, long press the (-) button to listen to the previous track or long press (+) to skip to the next track. You can also change the track from your external device.
6. To PLAY/PAUSE a track, short press the "▶||" button from the unit or from your external device.
7. To answer or disconnect your calls, short press the call button on the earphone. You will be able to use the hands free feature with the built in mic and you can also answer and disconnect from calls on your external device.
