

99-DET02  
FCC ID: 2AFBLDET02  
IC: 20678-DET02

The image shows a white, rectangular electronic component, likely a detector or sensor, mounted on a wooden surface. The device has a central rectangular section with a circular indentation in the middle. On the left and right sides, there are mounting flanges. Each flange has a hexagonal brass-colored screw hole and an oval-shaped slot. There are also two small, dark, oval-shaped holes on the top and bottom edges of the central section. A white label with black text is affixed to the bottom center of the device. The text on the label reads: 99-DET02, FCC ID: 2AFBLDET02, and IC: 20678-DET02. The device is oriented horizontally.
