

## Differences Description

We Shenzhen Longzhiyuan Technology Co., Ltd. state:

Product name: Trail Camera

Model: H-03, H-12P

The working principle of the circuit is the same, but the PCB layout and product appearance are different.

- a. The RF circuits of different models are the same.
- b. Their Bluetooth antenna and wifi antenna have the same size and gain.
- c. The appearance of H-03 and H-12P is different, mainly because the appearance color is different from the position of camera and sensor. The functions between models are the same.

The appearance difference is shown in the figure below:
