## WHAT'S INSIDE

**BUCKSHOT PRO**

**BIKE MOUNT**

\*Micro USB Cord and instructional manual  
are also included in the packaging.

## ANATOMY

- Multifunction button (MFB)
- Blue and red LED light indicator
- Volume down // Skip backward
- Volume up // Skip forward
- Microphone
- Passive bass port
- Micro USB port
- USB output port

## POWER UP

## TO CHARGE

1. Connect the included Micro USB cord to a power source and the charging port on the BUCKSHOT PRO. When charging, the red LED light will stay activated. \*\*\*Full charge time is about 3 hours.
2. When the BUCKSHOT PRO is fully charged, the RED light will turn off.

The displayed battery meter is supported for Apple products.

\*The BUCKSHOT PRO's Bluetooth and music functions can still operate while charging.

## POWERBANK FEATURES

### Charging your devices:

1. Connect the USB Port cable to the BUCKSHOT PRO's output port.
2. Connect the other port to your device.
3. Your device should automatically start charging.
4. When the your device is fully charged, disconnect the BUCKSHOT PRO.

## ■ PAIRING MODE

### Power On / Off

**ON:** Hold the MFB for 2-3 seconds or until the LED light flashes blue and the voice prompt states "Power on"

**OFF:** Hold the MFB for 3-4 seconds or until the LED light flashes red and the voice prompt states "Power off"

### Enter Pairing Mode

When powered on, it will enter into pairing mode automatically. Hold the MFB for 2-3 seconds or until you see the LED light flash blue and the voice prompts states "Power on, Pairing." The LED lights will then flash red and blue alternately.

### Pairing BUCKSHOT PRO to Device

Open the Bluetooth settings on your device. If you have put your BUCKSHOT PRO into pairing mode, it should be listed as "ODT BUCKSHOT PRO" as an available device to pair. Connect with the BUCKSHOT PRO. The voice prompt will state "Successful" if the BUCKSHOT PRO and your device connected. The blue LED light will flash for as long as the device is connected and on.

**\*The BUCKSHOT PRO will automatically repair to a previously paired device.**

## CARE & MAINTENANCE

- Do not access the input/output simultaneously.  
It may affect the product's performance and not charge properly.
- Use a soft, dry cloth to wipe the surface.  
Do not use intensive chemical products or detergent to clean the product.
- Charge the product at least once every three months, to prevent the batteries from drying out.
- It is normal for the battery to heat up during its charge. The temperature should be below 45° & does not affect the BUCKSHOT PRO's performance.
- For best performance, fully charge the BUCKSHOT PRO before charging other devices.
- All products have passed the strict quality inspection, Do not use the battery/device if it gives off an odor, generates heat, becomes deformed, abrasion, damaged or appears abnormal in any way

**This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.**

**THE MANUFACTURER IS NOT RESPONSIBLE FOR ANY RADIO OR TV INTERFERENCE CAUSED BY UNAUTHORIZED MODIFICATIONS OR CHANGE TO THIS EQUIPMENT. SUCH MODIFICATIONS OR CHANGE COULD VOID THE USER'S AUTHORITY TO OPERATE THE EQUIPMENT.**

**Hereby, Joyatech, declares that this BUCKSHOT PRO is In compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC.**

K, Later gator.
