 name "AS-31" and connect it. You can play your phone's music after
 successfully connected with another indicator sound.

148 mm

Socket Description (rear of speaker)

1. Micro SD card socket
2. AUX cable socket 3.5mm
3. USB charging socket
4. Power Switch: OFF / ON (with lights)
/ ON (audio only)

Operation Instruction

1. To switch on, locate the ON/OFF switch on the rear of the speaker. The speaker can operate with or without the water dancing lights indicated by the switch position.
 2. The speaker will always start in Bluetooth mode by default and you will hear an indication sound.
 3. To connect via Bluetooth, activate Bluetooth on your device (e.g. mobile phone) and search for nearby devices.
 4. Select "Helium Aqua" and connect. If you have connected successfully, you will hear an indication sound and it is ready to play your music.
 5. Press the mode button to change between AUX/Micro SD modes.
- Micro SD mode:**
 Insert a Micro SD card and the music will start to play automatically (While using the speaker in this mode, the LED indicator will flash).
- AUX mode:**
 Connect the 3.5mm cable supplied to the headphone output of your device (e.g. PC, laptop, smart phone) while the speaker is in AUX mode use your device to change the music track.
6. To re-charge the speaker connects it to a PC/Laptop or quality branded USB socket using the USB cable included. A red LED will indicate charging is in progress, and the LED will go out once fully charged.
