Specification

model：YZ10

input interface：USB MINI 5PIN

voltage：DC2.8V-4.2V

output power：3W DC5V

working current：≤45mA

standby current：<500uA

audio performance ：SBC decode

dB ：≥75dB

charging time：about 2-3 hours

play time：about 4hours（50% volume）

Built-in battery：polymer lithium battery/150mAh

Bluetooth Core ：V2.1+EDR

Bluetooth model：F-6188 V4.0

Support bluetooth protocol: HFPV1.5,A2DPV1.2,AVRCPV1.4,HSP1.2,GAVDP1.2,IOP

working range：<10 Meters

transmission power：Class2，4dbm

sensitivity：-80dBm<0.1%BER

frequency domain：2.4GHz~2.480GHz

temperature range：-40°C to +85°C

boundary dimension：diameter60mmxheight50mm

net weight：203g

Packing and Accessories

Bluetooth speaker：1set

connecting line：1 USB line

Please read this manual and check the product accessories before use.

Do not remove or squeeze the product personally to void damaging.It can not be beside or use near by the high tem perature heat source such as fire, heater etc.Never put this product into water or other liquid, when not in use for a long time, should be placed in a cool and dry environme nt, suggested that charge once every other month.

Note：Product specification change due to technical improve ments without prior notice.

FCC Statement:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or

television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: Modifications to this product will void the user's authority to operate this equipment.
