1 Bluetooth Speaker  
1 Micro USB to USB  
1 User Manual

Features:

- 4 Built-in LED modes
- Automatically reconnects with the last connected Bluetooth device
- Rechargeable battery provides up to 6 hours of continuous playback
- Included micro USB cable connects to a USB charger to recharge speaker
- 3.5mm audio jack to provide a wired audio input

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

**Shenzhen Huanrui Electronic Co. Ltd**,declares that this Radio-Frequency peripheral is in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC

Charge It

- Plug the micro USB cable into the micro USB port on the side of the speaker, and connect the other end of the cable to either a computer USB port or to a USB-compatible car or wall charger.
- Solid red LED light will appear on the side of the speaker to indicate when the speaker is charging, even while speaker is turned off.
- When charging is complete, the red LED light will turn off.
- Charging time is approximately 2.5 hours.

Turn It On/Off

- To power on the NOVA, press the power button on the side of the speaker for 2-3 seconds.
- The NOVA will emit a tone, and the LED lights will turn on.
- To power off, press and hold the power button.

Pair & Connect

- Power the NOVA on (refer to the “Turn It On/Off” section).
- The LED indicator on the side of the speaker will start to flash blue. Your speaker is now ready to be paired. *Note: LED indicator will go out if no Bluetooth device is detected within 5 minutes.*
- On your Bluetooth-enabled smartphone, tablet or media player, navigate to the Bluetooth settings menu, turn on the Bluetooth feature, and search for new devices.
- After a few seconds you will see “MERKURY SPB17” listed.
- Tap this model to select it, the speaker will emit a beep and the LED will stop flashing and turn a solid blue to indicate that it has been successfully paired with your device.
- If using AUX, connect the included AUX cable to the port on the side of the NOVA. Then connect the 3.5mm auxillary jack at the other end of the cable to your device's audio jack.

Play

- Connect your device to the NOVA via Bluetooth (refer to the “Pair & Connect” section) or via the included micro USB to AUX cable.
- Open your favorite music app and press play.
- Control the music, track and volume from your mobile device or the speaker.
- All audio (including music, games, videos, & notifications) will be routed through the NOVA.

Reconnect to Bluetooth

- You only need to pair your Bluetooth device with the NOVA once.
- With your previously paired device's Bluetooth turned on and in range, power on the NOVA.
- The speaker will automatically reconnect to the last Bluetooth device it was connected to.
- If you have a previously paired device that does not auto-reconnect, navigate to the Bluetooth settings menu on your device, turn on the Bluetooth feature, and select “MERKURY SPB17” from your list of paired Bluetooth devices.

Troubleshooting

No power	Recharge your NOVA using the included micro-USB cable.
Music is not playing over Bluetooth	Make sure your Bluetooth device has A2DP profile. Check if both devices are paired and connected over Bluetooth. Restart the NOVA to reconnect your Bluetooth device.
Bluetooth device will not reconnect with the speaker	Navigate to your Bluetooth settings menu on your Bluetooth device, tap “MERKURY SPB17”, and select “Forget”. Now follow the steps to pair your device again.
