Vigo is a smart Bluetooth headset that tracks drowsiness and helps keep the wearer alert. With an infrared sensor that tracks the eyes and an accelerometer that tracks head movement, Vigo monitors changes in the user's blinking patterns to detect when he or she is dozing off and provide a stimulation in the form of a vibration, sound or LED alert. Vigo is also a fully functional Bluetooth headset that can be used to make calls or play music.

Main operations

Multi Function Button
VOL+
VOL-
Micro USB
Alert LED

GET STARTED
To turn on Vigo, press and hold the Multi-Function Button for 5 seconds. The Alert LED will flash 3 times, Vigo will vibrate once, and you will hear "Power on" spoken from the Vigo earpiece.

PAIRING
1. In your mobile phone Settings, turn on Bluetooth. (iOS and Android: Settings > Bluetooth > On)
2. To pair Vigo with your mobile phone, press and hold the Vigo Multi-Function Button for 7 seconds. The Alert LED will flash alternating red and blue.
3. In your mobile phone Settings, search for new Bluetooth devices.
4. Select "Vigo".
5. Once successfully paired, the Alert LED will stop flashing,

and you will hear "Connected" spoken from the Vigo earpiece.

USING VIGO
Answer an incoming call
Short-press the Multi-Function Button to answer the incoming call.
End a call
Short-press the Multi-Function Button to end the current call.
Reject a call
Long-press the Multi-Function Button for 2 seconds to reject the incoming call.
Adjust the volume
Press "VOL +" to increase volume. You will hear a "beep" from the Vigo earpiece.

Press "VOL -" to decrease volume. You will hear a "beep" from the Vigo earpiece.
Play/Pause
Short-press the Multi-Function Button to play/pause the music.
Power off
To power off Vigo, press and hold the Multi-Function Button for 5 seconds. The Alert LED will flash blue 3 times, and you will hear "Power off" spoken from the Vigo earpiece.
Battery charging & battery level
Charging: Use the included USB cable for charging. The Alert LED will turn red while charging.
Charging time: 2 hours. When fully charged, the Alert LED will turn off.
Low battery: You will hear "Low battery" spoken from the Vigo earpiece.

Music streaming
Streaming audio is initiated and controlled from your mobile phone.
When a call rings, any streaming audio will automatically pause, to enable you to answer the call. When the call is ended, the streaming audio will resume.
Play/Pause: Click the Multi-Function Button once.
Previous song: Long-press "VOL +" for 2 seconds.
Next song: Long-press "VOL -" for 2 seconds.

Sleep mode
Vigo will enter sleep mode after 3 minutes of no blink detected or no interactive.
