3	Mic	
4	Short Press: Switch Mode	Long Press: Refuse a call
5	Short Press: Next Song	Long Press: Volume up
6	Reset Hole	
7	Micro USB charging port	

The Aqua Sound WSP50 Bluetooth speaker comes with a built in rechargeable battery. Before using it for the first time we recommend you charge the battery fully.

1. Connect the USB cable to the USB port on the unit.
2. Connect the other end of the USB cable to a USB port on a PC or an AC/DC adapter. The LED indicator turns on to indicate that the battery is being charged. When the battery is fully charged, the LED indicator will turn off

# PAIRING

1. Turn off the speaker. Make sure the speaker is powered off before continuing
2. Press and hold the Power ON/OFF button until the blue LED light flashes - the Bluetooth speaker is ready for pairing.
3. Turn on your Bluetooth enabled device and activate the Bluetooth function then put it in pairing mode
4. Search for the Bluetooth device - "AQUASOUND WSP50" will show up.

5. Pair your Bluetooth enabled device with AQUASOUND WSP50. If a password is needed, type in "0000". After the speaker is paired with your device, connect it.

Tips:

Once the speaker is paired and connected to your Bluetooth device, it automatically connects the next time as long as the Bluetooth setting on your device is turned on.

## CONTROLLING CALLS

Answer a call: Press the Phone button.

End a call: Press the Phone button.

Reject a call: Press and hold the Phone button for around 2 seconds.

Redial the last number: Press the phone button twice quickly.

## CONTROLLING MUSIC

Playing Music: Once the device is connected choose the music file to play. You can use the speaker to FWD & RWD to the next file.

**FCC Caution:** Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:(1)This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

**FCC RF Radiation Exposure Statement:**

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment End users must follow the specific operating instructions for satisfying RF exposure compliance. This transmitter must not be collocated or operating in conjunction with any other antenna or transmitter.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
