

# Wireless Hygrometer and Thermometer

## User Manual

- 1 . LCD display
- 2 . LED status indicator

1. Metal stand
2. Wall mount bracket
3. °C/°F switch
4. Channel switch (1-3)
5. Reset

---

## INSTALLING BATTERIES

---

In your sensor

1. Remove screws on the battery compartment door.
2. Select the desired temperature unit by °C/°F slide switch.
3. Remove the pull-tab from the battery compartment
4. Place back the battery compartment door and secure screws. Do not over-tighten.
5. Select channel 1,2 or 3 by sliding switch.

---

## TRANSMISSION COLLISION

---

Signals from other household devices, such as doorbells, home security systems and entry controls, may interfere with those of this product and cause temporarily reception failure. This is normal and does not affect the general performance of the product. The transmission and reception of temperature readings will resume once the interference recedes.

---

## NOTE ON °C AND °F

---

The unit of temperature display is selected on the °C/°F side switch. Select °C for Centigrade or °F for Fahrenheit.

*Note that the remote temperature display on the main unit is dominated by the selection on the °C/°F slide switch of the main unit. Whatever the display units of the remote sensors are, they will be automatically converted to the chosen one of the main unit.*

---

## LOW BATTERY WARNING

---

When it is time to replace batteries, the respective low-battery indicator will show up when the respective channel is selected. The battery level of the main unit will be shown on the indoor temperature when it is running low.

---

## THE RESET BUTTON

---

This button is only used when the unit is operating in an unfavorable way or malfunctioning. Use a blunt stylus to hold down the button. All settings will return to their default values.

---

## PRECAUTIONS

---

This product is engineered to give you years of satisfactory service if you handle it carefully. Here are a few precautions:

1. Do not immerse the unit in water.
2. Do not clean the unit with abrasive or corrosive materials. They may scratch the plastic parts and corrode the electronic circuit.
3. Do not subject the unit to excessive force, shock, dust, temperature or humidity, which may result in malfunction, shorter electronic life span, damaged battery and distorted parts.
4. Do not tamper with the unit's internal components. Doing so will invalidate the warranty on the unit and may cause unnecessary damage. The unit contains no user-serviceable parts.
5. Only use fresh batteries as specified in the use's manual. Do not mix new and old batteries as the old ones may leak.
6. Always read the user's manual thoroughly before operating the unit.

Measuring temperature range	: -30°C to 70°C (-22°F to 158°F)
Operating temperature	: -30°C to 70°C (-22°F to 158°F)
Temperature resolution	: 0.1°C (0.2°F)
Measuring humidity range	: 20% to 90%

Remote Sensing unit: 2 pcs UM-4 or  
“AAA” 1.5v alkaline battery

Remote Sensing unit: 75g

Remote Sensing unit : 92\*60\*20mm

#### **Federal Communications Commission (FCC) Statement**

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

**Note:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**Warning:** Changes or modifications made to this device not expressly approved by Shenzhen Flamingo Technology Co., Ltd may void the FCC authorization to operate this device.

**Note:** The manufacturer is not responsible for any radio or tv interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.
