Re: application for AZM 300 Safety Interlock Switches

**FCC ID: 2AFO9-AZM**

**IC ID: 20745-AZM**

Gentlemen,

The North American version of the User Manual for the

Safety Interlock Switches Series: AZM 300

RFID tag readers

will include the following statements:

### **15. Certification and safety approvals**

#### **FCC**

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Users are not permitted to make changes or modify the device in any way. Changes or modifications not expressly approved by **K.A. Schmersal GmbH. & Co. KG** will void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to

radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

### Industry Canada

Operation is subject to the following two conditions: (1) This device may not cause interference and (2) This device must accept any interference, including interference that may cause undesired operation of the device.

### IC (équipement sans fil)

L'utilisation du produit est soumise aux deux conditions suivantes : (1) Cet appareil ne risque pas de causer d'interférences, et (2) cet appareil doit accepter toutes les interférences reçues, y compris celles qui risquent d'entraîner un fonctionnement indésirable.
