

TAYLORSENSE™ USER GUIDE

SET UP AND USE

1. Download and launch the Taylor Owner's app.
2. **IMPORTANT!!** – Before connecting to your TaylorSense, move to a location at least 30 feet away from any other active TaylorSense sensors to ensure the best pairing experience!
3. Remove and replace the 9V battery then place the TaylorSense sensor within six inches of your smart phone or tablet.
4. Follow the on screen instructions to begin pairing the sensor.
5. See <http://www.blustream.com/taylorsense-setup> for detailed instructions, video guide, and troubleshooting tips.

SAFETY AND HANDLING.

WARNING. Please read all safety and operating instructions before operating this device.

BATTERY. Always use the recommended type of battery. Keep batteries away from children. Keep batteries away from heat. Replace depleted batteries before reaching 10% remaining power. To preserve battery life, do not leave an instrument cord plugged into your guitar when not in use.

SERVICE AND REPAIR. In the United States and Canada, please contact Taylor Guitars at our El Cajon, California service center at 1-800-943-6782 between the hours of 8:00 AM and 4:30 PM PST.

FCC AND IC STATEMENTS OF COMPLIANCE

FCC COMPLIANCE. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

WARNING. Changes or modifications not expressly approved by Taylor and Blustream could void the user's authority to operate the equipment.

INTERFERENCE. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a

residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: (1) Reorient or relocate the receiving antenna; (2) Increase the separation between the equipment and receiver; (3) Connect the equipment into an outlet on a circuit different from that to which the receiver is connected; (4) Consult the dealer or an experienced radio/TV technician for help.

IC WARNING. This device complies with Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

EXPOSURE TO RADIO ENERGY. This portable transmitter with its antenna complies with FCC and Industry Canada RF exposure limits for general population / uncontrolled exposure.
