

How to Display FCC ID Label (After certification, display it on the "Pairing Page")

- Wake Up the Tag:** Ensure the EPD is not blank or shows a "sleep mark" (red/black square in the top-left corner).
 - If "sleep mark" present, please activate wake-up mode from ELSA WEB until ED removes the "sleep mark."

Active wake-up mode from ELSA web

- Switch Screens:** Switch the EPD display to the "Pairing Page"
 - Select the ED from ELSA WEB, then click the "Show Barcode" button.

- The ED will be preset to display the "Pairing Page" upon shipment.
