WEEE

Special precautions must be taken
to safely dispose of this product.
This marking indicates that this
product may not be discarded with
other household waste in the EU.

To prevent harm to the environment
or human health from inappropriate waste
disposal, and to promote sustainable reuse of
material resources, please recycle responsibly. To
safely recycle your device, please use return and
collection systems or contact the retailer where
the device was originally purchased.

CAUTION

RISK OF EXPLOSION IF BATTERY IS REPLACED BY
AN INCORRECT TYPE.
DISPOSE OF USED BATTERIES ACCORDING TO
INSTRUCTIONS.

Additional safety information and
precautions can be accessed at
the following link: [www.mi.com/en/
certification](http://www.mi.com/en/certification)

Important Safety Information

Read all safety information below
before using your device:

- Use of unauthorized cables, power adapters,
or batteries can cause fire, explosion, or
pose other risks.
- Use only authorized accessories which are
compatible with your device.
- This device's operating temperature range
is 0°C to 40°C. Using this device in an
environment outside of this temperature range
may damage the device.
- If your device is provided with a built-in battery,
to avoid damaging the battery or the device, do
not attempt to replace the battery yourself.
- The battery must be recycled or disposed of
separately from household waste. Mishandling
the battery may cause fire or explosion.
Dispose of or recycle the device, its battery,
and accessories according to your local
regulations.
- Do not disassemble, hit, crush, or burn the
battery. If the battery appears deformed or
damaged, stop using it immediately.
 - Do not short circuit the battery, as this may
cause overheating, burns, or other injury.
 - Do not place the battery in a high-
temperature environment.
 - Overheating may cause explosion.
 - Do not disassemble, hit, or crush the
battery, as this may cause the battery to
leak, overheat, or explode.
 - Do not burn the battery, as this may cause
fire or explosion.
 - If the battery appears deformed or
damaged, stop using it immediately.
- User shall not remove or alter the battery.
Removal or repair of the battery shall only be
done by an authorized repair center of the
manufacturer.
- Keep your device dry.
- Do not try to repair the device yourself. If any
part of the device does not work properly,
contact Mi customer support or bring your
device to an authorized repair center.
- Connect other devices according to their
instruction manuals. Do not connect
incompatible devices to this device.
- Your device is not a toy. As with all electrical
products, precautions should be observed
during handling and using of electrical
products to reduce the risk of electric shock.
If parents choose to allow children to use the
device, they should caution his or her child

about the potential hazard while using and handling the device.

Safety Precautions

- Observe all applicable laws and rules restricting use of device in specific situations and environments.
- Do not use your device in hospital operating rooms, emergency rooms, or intensive care units. Always comply with all rules and regulations of hospitals and health centers. If you have a medical device, please consult your doctor and the device manufacturer to determine whether your device may interfere with the device's operation. To avoid potential interference with a pacemaker, always maintain a minimum distance of 15 cm between your device and the pacemaker. To avoid interference with medical equipment, do not use your device near hearing aids, cochlear implants, or other similar devices.
- Do not use your device in places with high humidity, such as bathrooms. Doing so may result in electric shock, injury, fire, and charger damage.

EU Regulations RED Declaration of Conformity

Xiaomi Communications Co., Ltd. hereby declares that this product 23089MP43C is in compliance with the essential requirements and other relevant provisions of the RE Directive 2014/53/EU and RoHS Directive 2011/65/EU.

The full text of the EU declaration of conformity is available at the following internet address:
www.mi.com/en/certification

RF exposure information

This equipment complies with radiation exposure limits and has very low levels of RF energy that are deemed to comply without testing of specific absorption ratio (SAR).

Legal Information

This device may be operated in all member states of the EU.

Observe national and local regulations where the device is used.

Restrictions in the 2.4 GHz band:

Norway: This subsection does not apply for the geographical area within a radius of 20 km from the centre of Ny-Ålesund.

Frequency Bands and Power

This device offers the following frequency bands in EU areas only and maximum radio-frequency power:

2.4GHz Bluetooth: 6 dBm

WPT: 110-148 KHz < 37.7 dBuA/m at 10m Distance

EU BATTERY DISPOSAL INFORMATION

This symbol mark is for EU countries only. This symbol mark is according to the directive 2006/66/EC Article 20 Information for end-users and Annex II. Your product is designed and manufactured with high quality materials and components which can be recycled and/or reused. This symbol means that batteries and accumulators, at their end-of-life, should be disposed of separately from your household waste. In the European Union there are separate collection systems for used batteries and accumulators. Please, dispose of batteries and accumulators correctly at your local community waste collection/recycling centre. Please, help us to conserve the environment we live in!

REGULATORY STATEMENT

Federal Communications Commission (FCC) notice:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment and meets the FCC radio frequency (RF) Exposure Guidelines. This equipment has very low levels of RF energy that are deemed to comply without testing of specific absorption ratio (SAR).
