XLR Stereo Cables (x2)

Mini XLR to Male XLR
Stereo Cables (x4)

USB Power
Cables (x3)

Universal USB
Power Adapters (x3)

SYSTEM HIGHLIGHTS

- **Elegant Simplicity, Superior Sound, Professional Dependability**

The Wi Pro AudioMatrix WI-AMP50 is designed to enable users to create a stereo digital wireless audio distribution matrix from one transmitter to up to 50 digital wireless receivers without the need to route cables to speakers.

- **Wi Digital's Seek-and-Link Technology**

Designed to look, sound and configure like no other pro audio wireless system. This elegant plug-and-play system features Wi Digital's Seek-and-Link algorithms that enable receivers to search for audio stream acquisition and automatically link to the transmitter, rendering manual pairing a thing of the past!

- **Rugged Construction, Secure Mount, Portable Design**

The Wi Pro AudioMatrix transmitter and receivers are engineered with a super strong aluminum chassis and universal mounting metal belt clip with a 1/4" -20 screw mount that can be securely or permanently attached to the speakers and DJ gear, including stands, tripods and bipods for elevated and unobstructed line of sight setups.

- **Extreme Power Flexibility**

The Wi Pro AudioMatrix power source's flexible design boasts an internal rechargeable battery for 6~8 hours of battery operation.

Add a standard USB AA battery adapter for up to 20 hours of extended use. No need to power down the system to charge or replace the batteries.

There's also an AC power adapter for continuous operation. You can even use USB bus power to charge and operate your Wi Pro AudioMatrix. Enjoy true freedom from power concerns.

- **All Accessories Included!**

This combination of portability, simplified setup and all required accessories, including mounting kits and high quality cables, lets you set up quickly and easily!

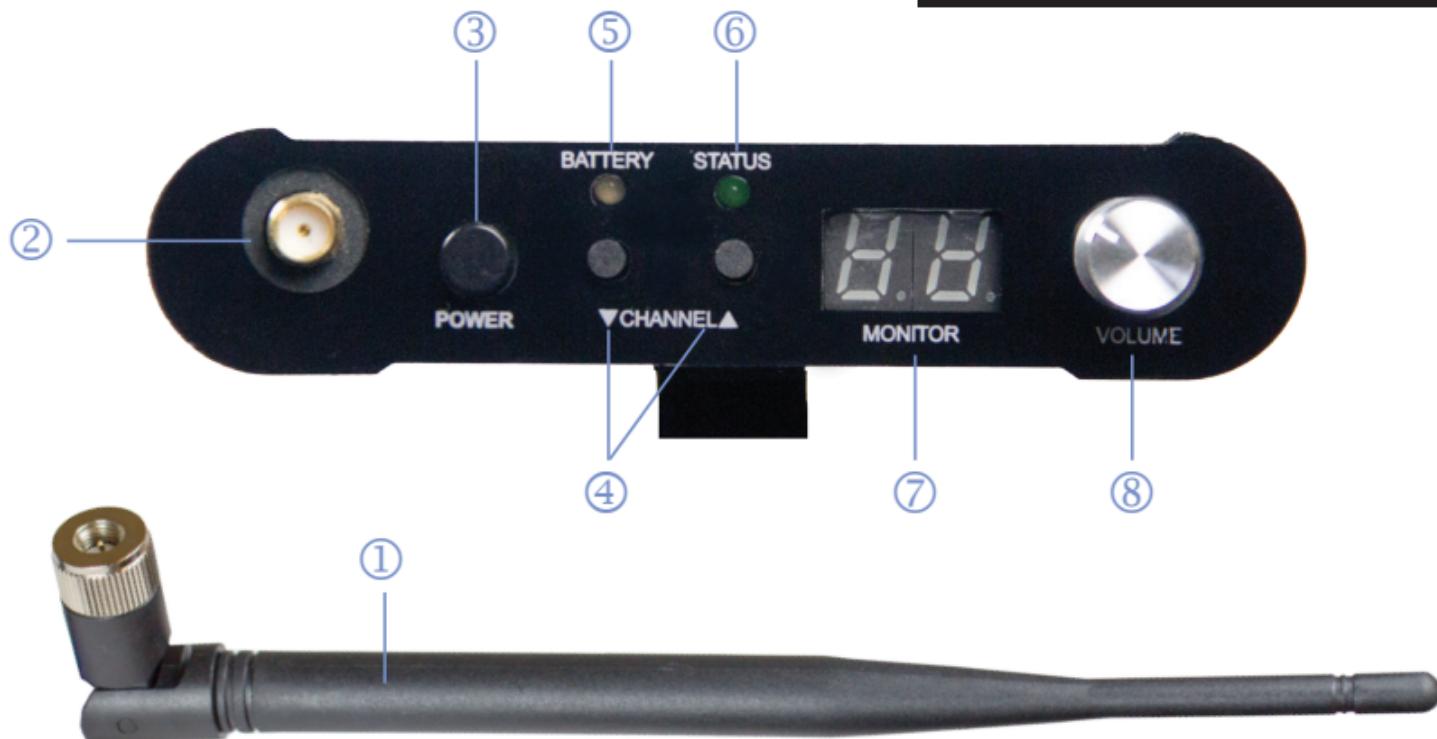

TRANSMITTER FEATURES

Transmitter Front Panel

- ① **Antenna:** Detachable High Performance Antenna
- ② **Antenna Port:** Place the antenna in a vertical position for best wireless transmission results. If the wireless signal quality is poor, change the position of the antennas.
- ③ **Power ON/OFF:** Press and hold the Power button for 2 seconds to turn the transmitter ON or OFF
- ④ **Channel Select:** Adjusts the frequency band range. Press the up or down buttons to select a channel
- ⑤ **Battery LED:** Displays the status of three functions. Full Battery, Low Battery and Charging.
- ⑥ **Status LED:** The LED will turn RED when the wireless signal is lost and GREEN when the wireless signal is established
- ⑦ **Monitor Display:** Displays the status of three functions. Channel Number, Volume Level and Mute Status
- ⑧ **Volume Control:** Rotate the dial clockwise for volume up and counter clockwise for volume down. Press and hold the dial for 1.5 seconds to mute or un-mute the audio transmission.

TRANSMITTER FEATURES

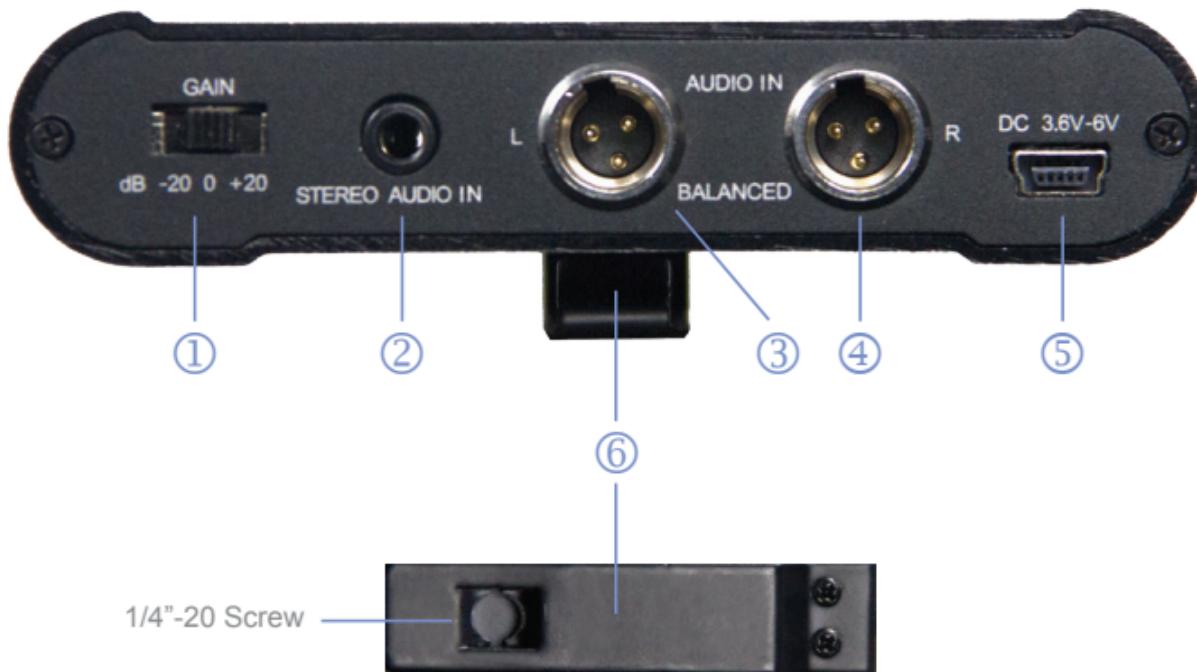

TRANSMITTER FEATURES

Transmitter Rear Panel

- ① **Gain Select:** Selectable gain levels -20 dB, 0 dB and +20 dB
- ② **Stereo Input:** 1/8" TRS stereo input port
- ③ **Left Channel:** Left channel audio input port (Mini XLR Balanced)
Connect this XLR input to the input of your mixer
- ④ **Right Channel:** Right channel audio input port (Mini XLR Balanced)
Connect this XLR input to the input of your mixer
- ⑤ **Power Input:** 5V DC, 500 mA (USB Bus Power)
Connect the included 5V DC, 500 mA power supply here
- ⑥ **Belt Clip:** Metal Belt Clip & 1/4"-20 Screw
Connect this port to the supplied mounting accessories for table top setups or speaker and stands setups.

SYSTEM SPECIFICATIONS

Wi Pro AudioMatrix Technical Specifications

System Specifications

Transmission Format:	2.4 GHz, 16-bit, 48kHz Digital Wireless
Frequency Response:	15Hz to 20kHz
Frequency Selection:	Auto select
S/N Ratio:	More than 96 dB (A-weighted) for stereo line-in mode More than 89 dB (A-weighted) for stereo and mono MIC mode
Distortion:	0.12 % THD
Connectors:	1/8" (3.5mm) TRS Stereo
Max Input Level:	1Vrms
Max Output Level:	1.2Vrms
Input Impedance:	3.3K ohm
Output Impedance:	< 10 ohm
Rechargeable Battery Life:	4~6 hours
Power Input:	5V DC, 500 mA

SYSTEM SPECIFICATIONS

Specifications

Battery Power Booster:	10~13 hours (With optional AA battery power booster adapter)
USB Bus Power:	Yes
Low Battery Alert:	15 minutes of life left
Power-up Modes:	Three (3) power-up modes (Stereo Line-in, Stereo Mic-in, Mono Mic-in)
Antenna:	Two internal antennas
Range:	Up to 250 ft (Range may be dependent on line of sight and may vary due to local conditions)
Units operating at the same time:	9
Transmitter Weight:	0.068 lbs (1.08 Oz) (30.8g)
Receiver Weight:	0.068 lbs (1.08 Oz) (30.8g)
Dimensions:	1.2" W x 0.6" D x 3.34" H
Mounting Method:	Metal belt clip

CHARGING

Charging The System

Before using your new Wi Pro AudioMatrix™ digital wireless system, you need to fully charge the batteries for approximately 2 hours.

1. Plug the AC Charger into a power socket.
2. Connect the USB power cable to the USB port on the AC charger.
3. Connect one of the two mini USB connectors to the transmitter USB port.
4. Connect the second mini USB connector to the receiver USB port.
5. The Battery LED will turn to solid Red ON.
6. When charging is complete the Red LED will turn OFF.

The system power source's flexible design boasts 4 power options:

- 6~8 hours internal rechargeable battery use.
- 13 hours with USB AA battery adapter (optional Accessory).
- Continuous use with AC power adapter.
- Continuous use with USB port bus power

CHARGING

ANTENNA CONNECTION

Audio Cable Connection

1. Locate the 1/8" stereo Y-split to 1/4" TRS stereo cable or the 1/8" to XLR TRS audio cable that comes with the system.
2. Connect the 1/8" TRS jack end of the cable to the audio output port of the Receiver, then connect the left and right 1/4" TRS cable ends to the mixing console audio input jacks.
3. Connect the XLR cable end to the MIC XLR port on the mixing console.

ANTENNA CONNECTION

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct.

The interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of FCC Rules.

Operation is subject to the following two conditions:

This device may not cause harmful interference, and this device must accept any interference received, including interference that may cause undesired operation.

Note: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate this equipment.

FCC RF Radiation Exposure Statement

This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20 centimeters between the radiator and your body.
