While Bluetooth technology is a wireless technology, there are significant differences between Bluetooth, Wi-Fi, and GPS technology. The Bluetooth range of Rtriv key finder is up to 50m. Bluetooth is most effective at the 10m range, depending on the environment.</small> Safety instruction <ol style="list-style-type: none"> 1. The Rtriv can not be used without installing and running the Rtriv App on your phone. 2. Keep it dry and away from moisture and corrosive materials. 3. Do not disassemble this product or attempt to repair or modify it in any manner. 4. Battery and battery-cab are included in the product, they are all small parts to children. The product should not be used without the adult supervision in case children swallow or get choked by these small parts. Consult your doctor immediately if that happens. 5. All products have gone through a thorough quality assurance inspection, feel free to use it. 6. Always return used button batteries to your local battery-recycling center.
