

## **BATTERY PACK User manual**

### **User manual**

Thank you for purchasing the battery pack. It is a rechargeable device designed to store energy from USB charging port and use that power to charge mobile devices including, but not limited to , smart phones, tablets PCs and MP3 players. Please read the manual carefully before using this product and be sure to keep this manual in a safe place for future reference.

### **Use guidelines**

- Please read this manual carefully before using the product.
- Be sure to select the proper connector for your device.
- Only use an adapter that matches the input specifications of the battery pack. Using the wrong adaptors may damage the device.

### **Safety precautions**

- Do not expose the battery pack to prolonged high temperatures over 50C.
- Do not short circuit the battery pack
- Do not store or transport the device near sharp objects that may puncture the battery pack
- Keep the battery pack away from water and fire. If the battery pack becomes wet unplug the cables immediately.
- Do not use the battery pack if there is electrolyte leakage, strange odor, overheating, color change or any other abnormal occurrences.

## package

- Wireless battery pack
  - Micro-USB C TYPE 5V/2.1A input
  - USB 5V/2A output
  - Power button
- Usb cable
- User manual

## Operation guide

- Charging the battery pack
  - 1-1. charging via USB Cable : plug the USB cable into a USB adaptor that can plug into a wall outlet or computer. Plug the USB end of the charging adaptor cable into the adapter and the micro-USB end of cable into the battery pack input port.

1-2. when the battery pack is being charged the capacity indication lights will flash. When it is fully charged, the lights will stop flashing

- Charging your mobile devices

1-1. Check the remaining capacity of the battery pack. If the capacity is low, charge it first.

1-2. Select the correct connector from the USB output of the battery pack to your mobile device.

1-3. plug the connector into your mobile device and the plug the cable into the USB output port of the battery pack.

1-4. the battery pack will be turned on automatically and start charging the mobile device

2-1. Check the remaining capacity of the battery pack. If the capacity is low, charge it first.

2-2. Put the mobile device on the battery pack

2-3. Push the power button during 1 second and start charging the mobile device

- Automatic shut down

The battery pack will turn off automatically when it no longer detects a device to charge.

## **Products specifications**

- Model number      DOTWACBTX16001
- KCC Registration No.      MSIP-RMM-SHQ-DOTWACBTX16001
- Battery type      Li-ion polymer battery
- Nominal input      5V/2.1A
- Nominal output      5V/2A
- Wireless output      5V/1A

- Capacity 8,000mAh
- Weight 232g
- Operating temperature 0C~45C
- Charging time 8 hours

## **FCC Information to User**

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

## **Caution**

Modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**FCC Compliance Information :** This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation

## **IMPORTANT NOTE:**

### **FCC RF Radiation Exposure Statement:**

This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment.

The antennas used for this transmitter must be installed to provide a separation distance of at least 10Cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter.

## CAUTION

To reduce the risk of electric shock, do not remove the top cover (or the rear section).  
No user serviceable parts inside, refer servicing to qualified personnel.

This symbol, wherever it appears, alerts you to the presence of uninsulated dangerous voltage inside the enclosure-voltage that may be sufficient to constitute a risk of shock.

This symbol, wherever it appears, alerts you to the important operating and maintenance instructions in the accompanying literature. Please read the manual.

- 1) Read these instructions.
- 2) Keep these instructions.
- 3) Heed all warnings.
- 4) Follow all instructions.
- 5) Do not use this equipment near water.
- 6) Do not use near any heat sources such as radiators, heat resistors, stove, or other equipment that produce heat.

### CAUTION

**RISK OF EXPLOSION IF BATTERY IS REPLACED  
BY AN INCORRECT TYPE.  
DISPOSE OF USED BATTERIES ACCORDING  
TO THE INSTRUCTIONS**

### European CE notice to users and product statements

This product is CE marked according to the provisions of the R&TTE Directive(99/5/EC). Hereby, Shinan Information Communication declares that this product is in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC.
