Troubleshooting

Issue	Possible problem	Resolution
Does not turn on	Check if the battery power is low	Charge the battery During charging, the indicator light will turn red. Once the headset is fully charged, the red indicator light will go out.
Unable to pair	U1 doesn't enter pairing mode	Turn off U1, press and hold the MFB button for 3 seconds. When flashes blue and red, search for the headset again.
If the above resolutions cannot solve your problem, please contact us immediately. We will settle these for you as soon as possible. Do not dismantle.		

FCC CAUTION:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) this device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.

Note:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Please take attention that changes or modification not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC RF EXPOSURE STATEMENT:

The device has been evaluated to meet general RF exposure requirement, The device can be used in portable exposure condition without restriction.

Technical Parameters

Speaker sensitivity: 92dB
Frequency range: 20Hz-20KHz
Bluetooth version: Bluetooth4.1
Bluetooth protocol: AVRCP A2DP HFP HSP
Operating range: 10 Meters

Working altitude: 0-10,000 Meters

Product model: U1
Product type: Bone conduction Hair Hoop Bluetooth Headset
Charger port: Micro USB 5V
Weight: 108g
Standby time: Up to 100 Hours
Talk time: Up to 6 Hours
Play time: Up to 6 hours
Charging time: Approximately 3 hours
Producer: Suzhou YOKO BCT Electronic Corporation

Storage and maintenance

- ♦ Wipe your headset with a soft towel.
- ♦ Do not store your headset with any sharp object.
- ♦ Do not store your headset in very hot or very cold areas.
- ♦ Try to avoid pull, stress or other artificial damage that will make the headset deformed and influence the comfort.
- ♦ The headset is not waterproof.

Charging the battery

Connect the headset to the USB socket on your PC or a wall charger via Micro USB cable. The headset fully charges in approximately three hours. During charging, the indicator light will turn red. Once the headset is fully charged, the red indicator light will go out.

Note:

It's recommended to charge U1 before using for the first time.
