Subject: SAR evaluation Exemption Compliance Information

Swimmo SW7:

FCC ID: 2AG9M-SWV7

**FCC KDB 447498 D01 v06 Clause 4.3.1 SAR test exemption criteria**

Swimmo SW7 meets the FCC Part 2.1093 and FCC KDB 447498 D01 v06 Clause 4.3.1 SAR test exemption criteria at the separation distance of 5mm. Analysis for FCC portable use SAR exemption is as follows:

A test separate distance of 5 mm has been applied to the SAR test exclusion calculation.

Maximum tune conducted output power:  $+2\text{dBm} + 2\text{dBm} = 4\text{dBm} = 2.51\text{mW}$

$$(2.51\text{mW} / 5\text{mm}) * \text{SQRT}(2.480) = 0.79 < 3$$

The above calculation shows that, for portable use the SAR exclusion condition is satisfied and SAR evaluation is not required.

Yours sincerely

Mateusz Heliak

CEO Swimmo Sp. z o.o.
