

FCC ID:2AGCAE3

Model Name:E3

ABRAMTEK E3  
True Wireless Earbuds

- User Manual -

It is recommended to try Medium eartips as it's suitable for most people. The factory assembled earbuds are equipped with Medium eartips.

IMPORTANT: Please use the best fit eartips. The better the air tightness, the better the sound insulation and sound quality.

Notes:

- 1.If the earbuds cannot hold a charge, please insert USB-C cable to charge the charging case.
- 2.Please put the earbuds into charging case if not used. Otherwise, the earbuds always stay on.

#### How to pair earbuds with your phone

Take out the earbuds from charging case, the earbuds will power on and pair to each other automatically. Then the left earbud indicator turns off and the earbuds enter into pairing mode. Activate your phone's BT and search for "abramtek E3" and select. After initial setup, the earbuds will automatically reconnect to the last paired device.

Note: If the earbuds do not work properly, please put the earbuds into charging case for 2-3 seconds and then try again.

#### How to use single earbud

Support switch between left and right earbuds. You may listen to music with single left earbud or right earbud, with no need to repeat the pairing process.

#### How to recharge the earbuds

Put the earbuds into the charging compartment and make sure it fits the charging port contact receiver properly. When the earbuds are fully charged, the white indicator will turn off.

#### How to recharge the battery case

Insert USB-C cable to recharge the battery case. When the battery case is being charged, the white indicator turns on. When the battery case is fully charged, 4 white indicators light up.

#### Function Points

#### Power ON

Take out the earbuds from charging case, the earbuds will power on automatically (White indicator flash 3 times, and then orange indicator light once).

#### Power OFF

Put the earbuds into the charging case, the earbuds will power off automatically (Orange indicator always on)

#### Answer Phone Calls

When a phone call comes in, tap the right earbud twice (time interval 0.6s) and this will answer the call. After you finish your conversation, tap the right earbuds twice to hang up phone.

#### Reject Phone Calls

FCC Caution.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
