

Smart Watch

FCC Warning

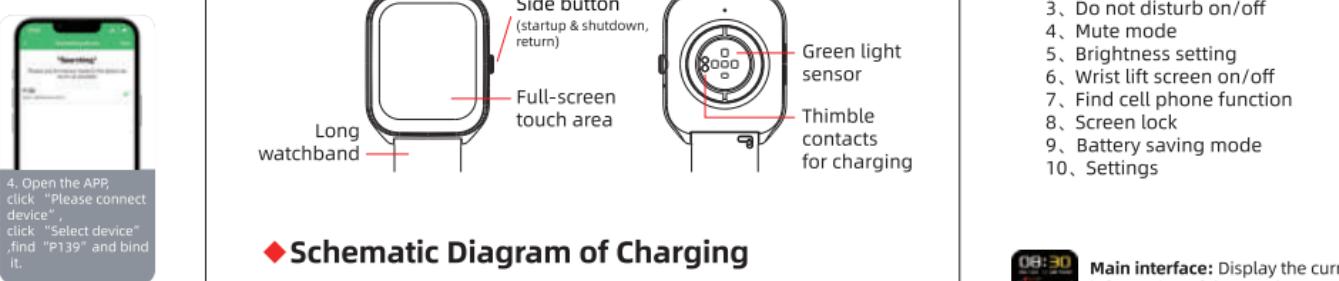

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
—Reorient or relocate the receiving antenna.
—Increase the separation between the equipment and receiver.
—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
—Consult the dealer or an experienced radio/TV technician for help.

Important: Change or modifications not expressly approved by the manufacturer responsible for compliance could void the user's authority to operate the equipment.

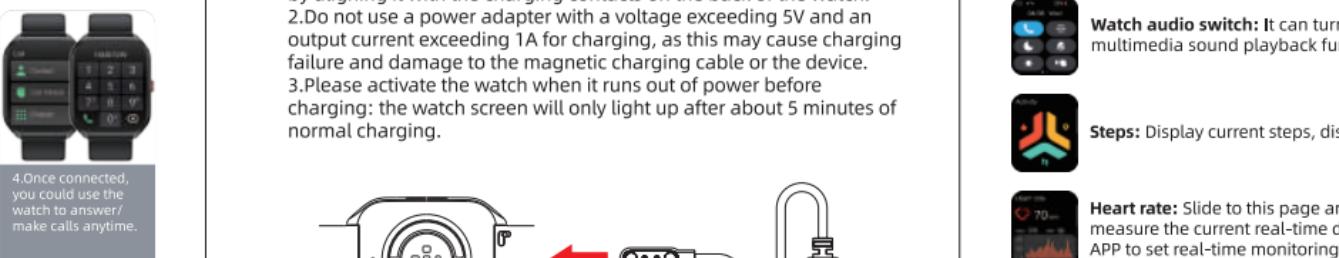

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) This device must accept any interference received, including interference that may cause undesired operation.

◆ Connect

A: First of all, please be sure to connect our smart watch through the "GloryFit" APP.

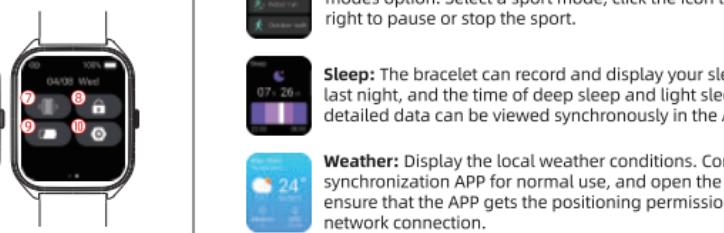

B: Perform the following steps to enable the answer/call function.

If you don't need to use the call function, you can turn off the answer/call function so that the battery can last longer.

◆ Appearance Description

◆ Schematic Diagram of Charging

Operate in strict accordance with the following figures:

1. Please use the product-specific magnetic charging cable to charge by aligning it with the charging contacts on the back of the watch.
2. Do not use a power adapter with a voltage exceeding 5V and an output current exceeding 1A for charging, as this may cause charging failure and damage to the magnetic charging cable or the device.

3. Please activate the watch when it runs out of power before charging: the watch screen will only light up after about 5 minutes of normal charging.

Stopwatch: Click on the icon to start the function, and click Start for timing, pause or reset. Slide right to leave.

Heart rate: Slide to this page and keep a while and automatically measure the current real-time dynamic heart rate. Connectable to APP to set real-time monitoring and view data records.

Search: Click this icon, your phone will beep to indicate the orientation of your phone, this function requires your phone to stay connected with the watch APP. No alert on the phone in silent mode.

Blood oxygen: Slide to this page and keep a while and automatically measure the current blood oxygen data and vibrate to indicate the result.

Settings: Tap the icon to enter the function, you can set the menu style, brightness adjustment, restore factory, power off and view watch information.

◆ Introduction to Watch Function

Exercise: Click on the icon on this page to access the multiple sport modes option. Select a sport mode, click the icon to start, and slide right to pause or stop the sport.

Sleep: The bracelet can record and display your sleeping time last night, and the time of deep sleep and light sleep. More detailed data can be viewed synchronously in the APP.

Weather: Display the local weather conditions. Connect the synchronization APP for normal use, and open the phone GPS to ensure that the APP gets the positioning permission and network connection.

FAQ: 1. Problems such as the watch cannot be searched in the APP, or the watch cannot synchronize with the time of the phone.

Answer: A. Make sure your phone's Bluetooth and phone GPS positioning are on. Operate in strict accordance with the following figures: WeChat and other notification alerts, which can be set according to the message alert and turn on the corresponding push switch on the APP. This page can store up to 8 message records. It is recommended to stay connected with the phone and make sure the APP gets the corresponding permission.

B. Use the phone to open the APP to obtain positioning permission (Phone Settings - Application).

C. If the watch has already been paired with a Bluetooth connection in the phone, please cancel the pairing first and then search for the connection in the APP.

Music: After connecting the APP, the watch can control the mobile phone player to play/pause/switch to the previous song and the next song. This function must be opened on the mobile phone player before it can be controlled on the watch. This function requires staying connected to your phone and turning on the notification push permission.

Steps: Display current steps, distance and calories of the watch.

Note: D. If the watch is not used for a long time, the Bluetooth will go into dormancy state. Please turn off the Bluetooth of the watch and the phone, reopen after about 1 minute, and try to search the connection in the APP.

E. The watch must be connected to the APP, otherwise, the steps, sleep, time, and other function will not work properly.

2. The watch cannot measure, or the data is not accurate.

Answer: A. Sit down before the measurement and put your body in relaxed state with your arm level with your chest position.

B. Adjust the tightness of the watch. The back of the watch should be close to the skin to prevent light leakage from the photodiode sensor.

C. Keep your body calm during the measurement, talking/coughing, sneezing and other movements will affect the accuracy of the measurement results.

3. The watch is not connected to the APP.

For first time use:
For Android users: Please operate according to the page prompt, open the information reminder function in the APP, and open the APP notification permission according to the prompt.

For Apple users: After the watch is connected to the APP, the phone will pop up a pairing request, please choose to allow pairing and turn on the switch of the application reminder that you need to use in the APP. Please open the "Notification Center" in the application you need to use via Phone Settings - Notification.

◆ Watch APP Installation and Connection Instructions

1. No charging with water stains.
2. This product is an electronic monitoring product, not for medical use, and the measurement data is for reference only.

3. It is not recommended to wear in hot water stains and long time swimming.

4. Please charge with the matching charging cable.

5. Please keep the charging feed point on the back of the device clean to avoid the device being unable to charge.
