To Whom It May Concern:

This letter is to inform you that we, Stack Labs, Inc. are requesting a change in FCC ID 2AGFX-STACK001 to include a new antenna to the list of approved antennas.

The new antenna is $\frac{1}{4}$ wavelength bent copper wire antenna soldered to the module via the through hole connection on the board. The antenna part number is WFM-00001-000.

In order to ensure continued compliance of the product, we have employed the following:

- The product is manufactured using under a quality control system following design and manufacturing specifications
- We have a product sampling program which will retest the product every 12 months to ensure compliance of the product through regular testing

Sincerely,

A handwritten signature in blue ink, appearing to read "KW", with a long horizontal line extending to the right.
