## DRAFT INSTRUCTION MANUAL

Model: 1.30.043

### BUTTONS

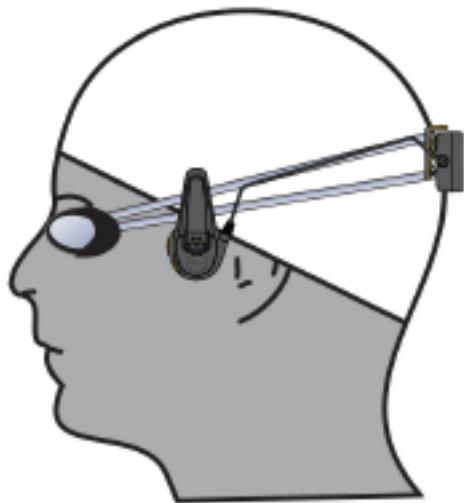

### LIGHTS

- A. Power (On/Off)
  - Red/Blue lights double flash
- B. Stand-by Mode
  - Blue light single flash every 5 seconds
- C. Bluetooth®
  - Bluetooth® Searching – Blue light rapid flash
  - Bluetooth® Connected – Solid Blue light
- D. Battery/Charging
  - Low Battery – Red light single flash every 1 second
  - Device Charging – Solid Red light
  - Device charged – Solid Blue light

### TONES

- A. Tone 1 (Four increasing tones) – Power On
- B. Tone 2 (Four decreasing tones) – Power Off
- C. Tone 3 – Bluetooth® Searching
- D. Tone 4 – Bluetooth® Connected

### FITTING

- A. Attach the clips on either side of your goggle strap.
  - We recommend placing the speakers in front of the ears, resting against your temple bones for ideal clarity.
- B. Clip the back of the device to the top strap of your goggles.
  - It is important that this part of the device remains on top of the head and out of the water while swimming.
  - If the back of the device goes underwater, the Bluetooth® connection will be temporarily lost. If the device resurfaces within 3 minutes it will automatically reconnect.

### CARE | Must be done to maintain optimal performance

- A. Important!
  - Failure to dry and clean device regularly may cause chemical build-up and compromise functionality.
- B. Daily Maintenance
  - Rinse with fresh water after every use.
  - Pat dry and store in safe, cool, dry environment.
  - Do not place in direct sunlight to dry. This may cause damage to the casing, battery and charging pins.
- C. Weekly Maintenance
  - Clean contacts on back of device using a soft cotton swab or toothbrush and rubbing alcohol.
- D. Waterproof IPX8
  - Tested to perform at a depth of 3 meters (10 feet) for 30 minutes. If immersion at 3 meters (10 feet), or deeper, occurs for longer than 30 minutes, damage may occur.

## DRAFT INSTRUCTION MANUAL

### CHARGING

- A. Plug the charging cable directly into the bottom of the device and connect to a computer's USB port.
- B. A solid Red light indicates that the device is charging.
  - Total charge time is 2 hours.
- D. A solid Blue light indicates that the device is fully charged.
- E. Full battery lasts up to 4 hours depending on usage and settings.

### ON/OFF

- A. To POWER ON: Press and hold the Power button for 3 seconds.
  - The Red and Blue lights will double flash with Tone 1.
- B. To POWER OFF: Press and hold the Power button for 3 seconds.
  - The Red and Blue lights will triple flash with Tone 2.

### STAND BY MODE

- A. After powering on, the device will automatically connect to a previously paired smart device.
- B. If no previously paired smart device is found the blue light will rapidly flash for 3 minutes to indicate that the Bluetooth® is searching.
- C. If the device does not connect, it will then go into Stand-By mode and the Blue light will flash every 5 seconds.
- D. The device will Auto Shut off if there is no action for an additional 2 minutes.

## DRAFT INSTRUCTION MANUAL

### CAUTION:

RISK OF EXPLOSION IF BATTERY IS REPLACED BY AN INCORRECT TYPE.

DISPOSE OF USED BATTERIES ACCORDING TO THE INSTRUCTIONS

This device complies with part 15 of the FCC Rules.

Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

### FCC NOTICE

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

### RF exposure statements

This Transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

Any changes or modifications not expressly approved by the party responsible for compliance could void your authority to operate the equipment.
