## Work Your Favorite

At Nulea, we believe you should choose the work you love and work in an environment that makes you feel comfortable and happy.

The Nulea Ergonomic Series is intended/designed for those who need to maximize the typing and navigation experience and minimize fatigue and stress.

Nulea hopes that the RT08 will become your favorite ergonomic keyboard, OR DO NOT HESITATE to contact support@nulea.com for money back.

Your suggestion to help us improve is also highly appreciated.

## Q.3

### What should I do if some keys are unresponsive?

1. Check if the keyboard is in low battery state. If so, replace the battery in time.
2. Remove the unresponsive keycaps and check if there are any foreign objects blocking the keys. Clean them and reinstall the keycaps.
3. If the problem persists, the keys may be damaged internally. Contact after-sales service for repair or replacement.

# Before Using

## Q.1

### How do I connect the keyboard to my computer?

1. First, make sure your computer has an available USB port.
2. Plug the keyboard's 2.4G receiver into the computer's USB port. Usually, the keyboard will connect automatically.
3. If it doesn't connect automatically, try reinserting the receiver.

## Q.2

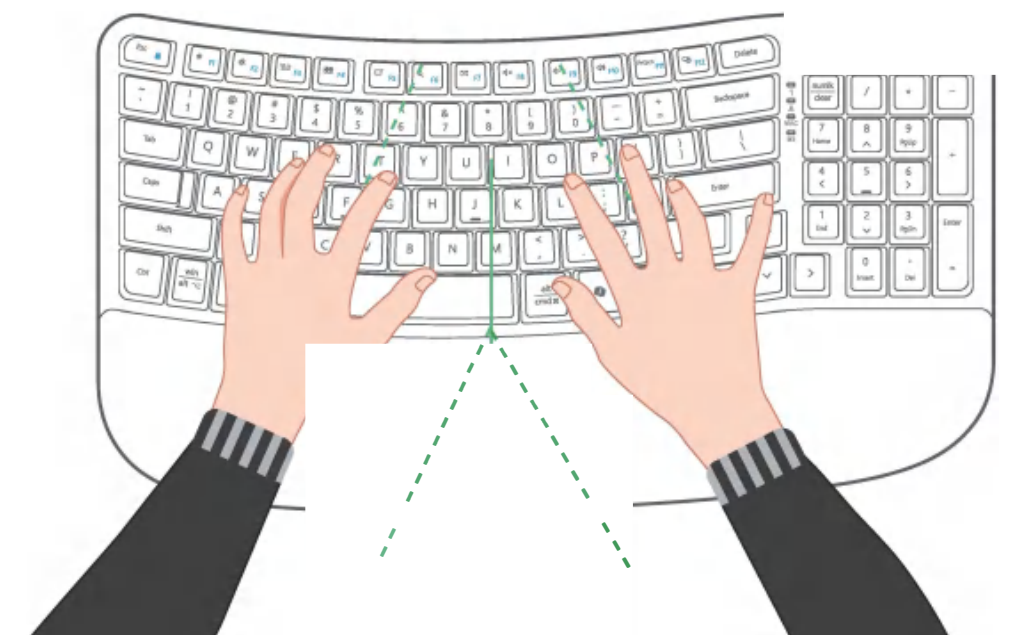

### What should I do if the connection is unstable?

1. Check whether the receiver is plugged into the USB port tightly to ensure a firm connection.
2. Confirm that there are no obstacles between the keyboard and the receiver that block the signal.
3. Try to plug the receiver into different USB ports on the computer. Sometimes some ports may have signal interference.
4. If there are other wireless devices around, they may interfere with the signal. Try to stay away from or turn off these devices.

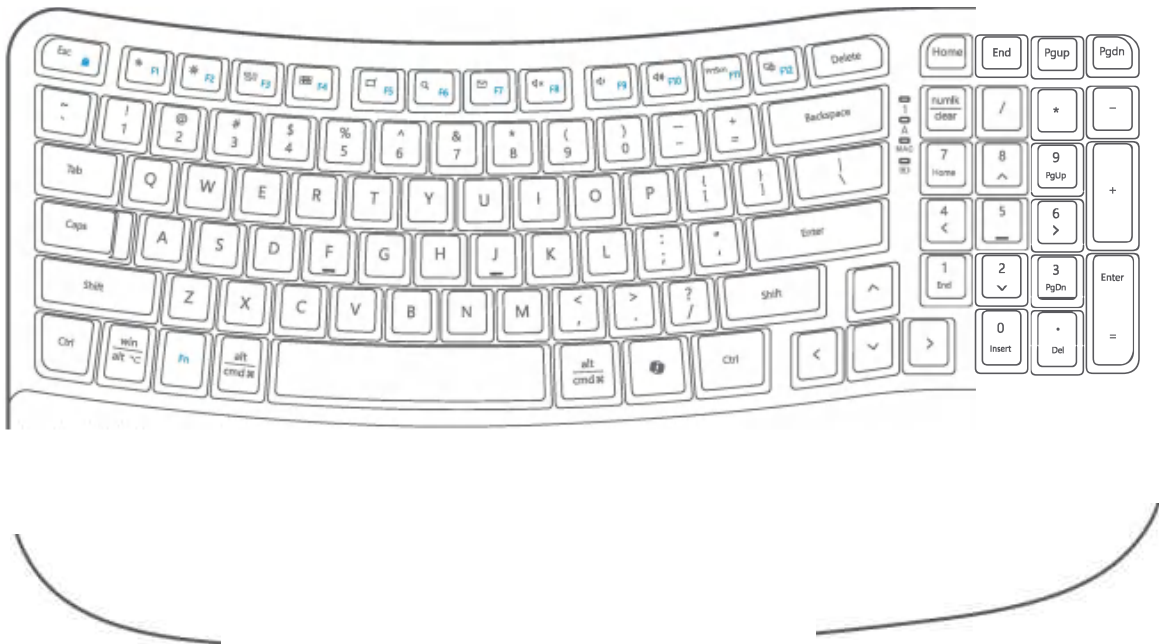

## Q.4

### What if I find it hard to adjust to the wavy keyboard layout?

The wavy keyboard layout is designed with ergonomics in mind, providing better wrist support and enhanced typing comfort. Don't worry if you have trouble adjusting at first. It's normal to feel a little unfamiliar if you're used to a traditional keyboard layout. We recommend that you give yourself some time to adjust to it. As you continue to use the keyboard, you may find that your fingers begin to naturally adjust to the new layout. If you still find it hard to adjust after a reasonable amount of time, please contact our customer service team. We will do our best to help you and find a solution that works for you. We may be able to provide tips for a quicker adjustment, or offer a refund if necessary.

Packaging Contents

- 1× Ergonomic Keyboard
- 1× 2.4G USB Receiver ( For 2.4G connection only )
- 1× User Manual

Specification

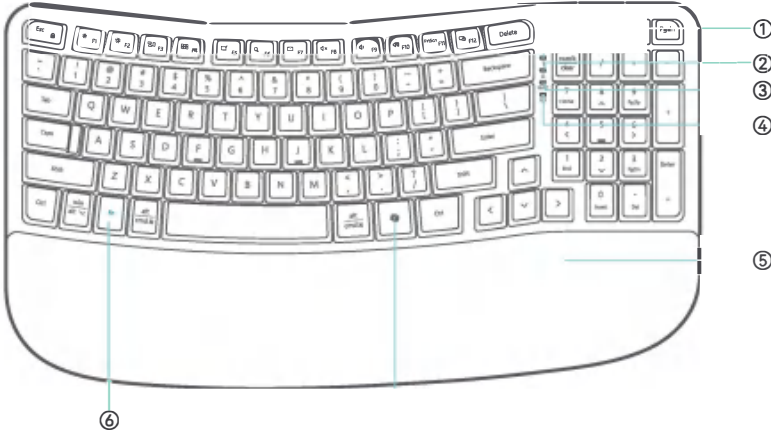

**Model:** TK52A  
**Connection Mode:** 2.4G USB Receiver  
**Operating Distance:** <8 m / 26.2 ft  
**Compatibility:** Windows 2000/XP/Vista/7/8/10/11, MacOS 10.0 or above  
**Dimensions:** 395.5 × 219.6 × 35.6 mm / 15.6 × 8.7 × 1.4 inches  
**Battery:** DC 3.7V, 500mAh

Keys and Functions

Multimedia keys	Windows	Mac	Turn off Fn Lock	Fn Lock is off	Mac / Windows
	Brightness- (Win10)	Brightness-			F1
	Brightness+ (Win10)	Brightness+			F2
	Switching Application	Mission Control			F3

Product Features

Components

- ① Number Lock Indicator
- ② Caps Lock Indicator
- ③ System Mode Indicator
- ④ Power Indicator
- ⑤ Leather Wrist Rest
- ⑥ Function (Fn) Key

Indicators & Definition

Indicator	Icon	Color	Definition
Num Lock	1	Red	When the Num Lock is activated, the indicator light remains red.
Caps Lock	A	Red	When the Caps Lock is on, the indicator light remains red.
System Mode Indicator	MAC	Red	When "Fn" + "W" is pressed to switch to the MAC system, the indicator light is constantly on and red. When "Fn" + "Q" is pressed to switch to the Win system, the indicator light is off.
Power Indicator		Orange Green	When the battery is low, the indicator light will flash orange. When the indicator light is constantly on green, it indicates that the "Fn" key of the keyboard is locked.

Sleep Mode

To conserve battery power, the keyboard will automatically enter sleep mode after 30 minutes of inactivity.  
Press any key to wake the keyboard from sleep mode.

FCC ID Statement

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.  
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Radiation Exposure Statement:

The device has been evaluated to meet general RF exposure requirements. The device can be used in portable exposure conditions without restriction.

Pairing Steps

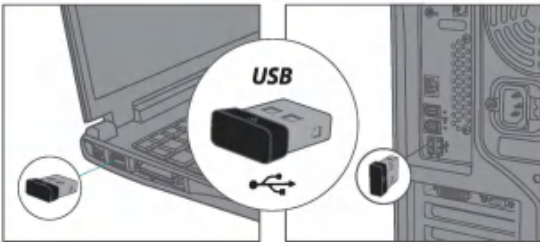

2.4G Connection

Step 1: Locate the USB Receiver

Find the 2.4G USB receiver securely stored on the bottom of the keyboard.

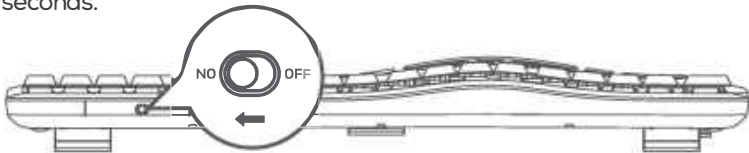

Step 2: Insert the Receiver

Plug the USB receiver into an available USB port on your computer or compatible device.

Step 3: Power On the Keyboard

Slide the power switch on your keyboard to the ON position. The keyboard should automatically connect to the receiver within a few seconds.

Step 4: Confirm the Connection

Start typing to test the connection. If the keyboard doesn't respond right away, wait a few moments or try using another USB port.

Correct Disposal of This Product

 (Waste Electrical & Electronic Equipment)  
This marking shown on the product or its literature, indicates that it should not be disposed with other household wastes at the end of its working life.

To prevent possible harm to the environment or human health from uncontrolled waste disposal, please separate this from other types of wastes and recycle it responsibly to promote the sustainable reuse of material resources. Household user should contact either the retailer where they purchased this product or their local government office, for details of where and how they can take this item for environmentally safe recycling.

Business users should contact their supplier and check the terms and conditions of the purchase contract. This product should not be mixed with other commercial wastes for disposal.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
