

Modular Approval request letter (for TCB – TCB approval):

Date (2015-12-14)

TUV SUD BABT TCB
Octagon House,
Segensworth Road,
Fareham,
Hampshire,
PO15 5RL

Dear Sir/Madam,

RE: Modular Approval Request for Model:

FCC ID: 2AGLVHEKR001

The following attestation addresses the requirements to support modular approval:

Modular approval requirement
(a) The radio elements must have the radio frequency circuitry shielded. Physical components and tuning capacitor(s) may be located external to the shield, but must be on the module assembly Answer: the module has no shielded cover
(b) The module must have buffered modulation/data inputs to ensure that the device will comply with Part 15 requirements with any type of input signal Answer: the modulation has buffered modulation/data input.
(c) The module must contain power supply regulation on the module Answer: the module has regulation power supply.
(d) The module must contain a permanently attached antenna, or contain a unique antenna connector, and be marketed and operated only with specific antenna(s), per Sections 15.203, 15.204(b), 15.204(c), 15.212(a), 2.929(b) Answer: the modulation has a permanently attached antenna, the antenna gain is 3dBi.
(e) The module must demonstrate compliance in a stand-alone configuration Answer: the module is compliance in a stand-alone configuration.
(f) The module must be labelled with its permanently affixed FCC ID label, or use an electronic display (See KDB Publication 784748 about labelling requirements) Answer: the module has a FCC ID label
(g) The module must comply with all specific rules applicable to the transmitter. The grantee must provide comprehensive instructions to explain compliance requirements Answer: the module comply with the FCC 15.247.
(h) The module must comply with RF exposure requirements Answer: See exhibition "Maximum Permissible Exposure(MPE) Estimation.

* Please provide a detailed explanation if the answer is "No."

Yours sincerely,

Liting Su
