

Malektronic Zero Gravity

Bluetooth Earbuds
User Manual

Safety and Security Precautions

In order to have a proper and safe use of the headset, please read this user manual in detail and save it.

* Please be aware of the following guidelines when using your headset:

- 1.Always consider the volume level and listening time when using any headset. Listening to sounds that are too loud for an extended amount of time could be damaging to your hearing.
- 2.Please stop using the headset in potentially hazardous situations to ensure your safety.
- 3.Please avoid using headset to listen to music or make or receive calls to avoid any distraction while driving.
- 4.Store this product and its accessories somewhere out of the reach of children, to avoid a potentially fatal danger caused by inappropriate use.
- 5.Please keep the headset away from water to avoid electric shock and/or damage to the unit.
- 6.Please avoid turning the volume up so high that you can't hear anything around you.
- 7.Stop using the headset if you feel any discomfort, irritation or have any other adverse reactions.
- 8.The headset should not be stored or used at temperatures below -15 °C (5 °F) or above 55 °C (131 °F) which may shorten headset or battery life.
- 9.Do not attempt to open or dismantle the unit. There are no replaceable parts.

Headset Overview

* In the box

- Bluetooth headset
- USB charging cable
- Carrying case and Carabiner
- Extra Silicone inserts in various sizes
- User Manual
- Wire Clip

* Charging your Zero Gravity headset:

- 1.When the battery is low, the headset will emit warnings to remind you to re-charge it
- 2.Turn off your headset
- 3.Connect the micro-USB end of the USB charging cable with the unit and connect the other end to your PC, power bank or other charging device whose output is DC5V, 0.5A-2A
- 4.The red LED light will remain on while charging
- 5.Your Zero Gravity headset will be fully charged in under 2 hours
- 6.The LED light will be off after the unit is fully charged

... 3 ...

* Power on:

- Press and hold the Function button until blue light blinks and headset issues a voice prompt.

* Pairing Mode:

- Press and hold the Function button until blue and red lights blink alternatively and headset issues a voice prompt.

* Switch off:

- Press and hold the Function button until the red light blinks and goes out and headset issues a voice prompt.

* Pair your headset with your mobile phone :

- 1.Keep the distance between the headset and mobile phone within 1 meter or 3 feet. The closer the distance, the easier it will be to connect.
- 2.Press and hold the Function button until blue and red lights blink alternatively, entering into pairing mode.
- 3.Initiate Bluetooth function of a mobile phone. Then "Zero Gravity" will be shown on your phone.
- 4.Select "Zero Gravity" (on some older mobile phones need you to input PIN "0000" as password) and the headset will automatically connect with your mobile phone, the blue light begins to blink.

Attention: Generally, there is a limit of 120 seconds to pair a headset with your mobile phone, or the Bluetooth pairing mode will stop when the lights go out. Please retry steps 1 to 4 to pair again if your operation doesn't work the first time.

... 4 ...

* Disconnect the headset from your mobile phone:

- Disable the Bluetooth function of your mobile phone.
- Or press and hold the Function button until the red light goes out to switch off the headset.
- Or move the headset away from the mobile phone to more than 20m (60ft away)

* Reconnect the paired headset with your mobile phone:

1. Keep distance of the headset and mobile phone within 1 meter. The closer, the easier it will be to connect.
2. Switch on the headset, and the headset enters into reconnection mode when the blue light blinks.
3. Switch on the Bluetooth search function on your mobile phone. Then the headset will automatically reconnect with the mobile phone which it had connected to last time.

Note: If you have unpaired/deleted the headset previously from the Bluetooth list of your device, the headset will not automatically reconnect and you will need to initiate a new connection.

* Answer incoming call:

- When there is an incoming call, the headset will issue a voice prompt. Press the Function button once to answer the call, or use your mobile phone to answer it.

* Reject a call:

- When there is an incoming call, the headset will issue a voice prompt. Press and hold the Function button for 2 seconds to reject the call, or use your mobile phone to reject the call.

* Hang up a call:

- Press the Function button once or use your mobile to hang up your call.

... 5 ...

* Redialing last call:

- In standby mode, Press the Function button twice to redial your last call.

* Music Play/Pause:

- Press the Function button once to play or pause music.

* Volume adjustment/Music selection:

- Press Vol(+) and Vol(-) once to select next track or previous track
- Hold the Vol(+) and Vol(-) to adjust volume.

FAQ

- 1) Why won't the Bluetooth Headset pair with a mobile phone?
Please check whether your headset is in pairing mode or reconnection mode. Check whether the Bluetooth search function of your mobile phone has been enabled. Check your mobile device's Bluetooth menu and delete/forget the headset, then reconnect the headset following instructions of user manual.
- 2) Why can't the Bluetooth headset be switched on?
Please check the battery status of your headset.
- 3) Can I change the battery for the headset?
No, this headset uses a built-in non-detachable Li-Polymer battery, it cannot be removed or replaced.
- 4) Can I use the headset while driving?
For safety reasons, we strongly recommend not to use in-ear headsets to avoid distractions while driving. It may also be illegal in some locations.
- 5) Why does the Bluetooth Headset disconnect from your mobile phone within 10 meters/30 feet?
Please check if there is any metal or other material within a relatively close range that may interfere with the Bluetooth connection. Bluetooth is a radio technology that is sensitive to objects near the headset and the connected device.
- 6) Why can't I hear a sound from my computer or mobile phone?
Please check whether the output channel of your computer is set to Bluetooth Audio Device and the Bluetooth function of your computer supports A2DP. Please also check the volume of your headset/computer/mobile phone.
- 7) Why can't I use the headset to control the volume or select track of an Application on my mobile phone?
Software settings of the Application may vary and lead to some functions of the Application that may not be controlled by the headset.

FCC COMPLIANCE INFORMATION:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.
Increase the separation between the equipment and receiver.
Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
Consult the dealer or an experienced radio/TV technician for help.
Warning: Changes or modifications to this unit not expressly approved by the part responsible for compliance could void the user's authority to operate the equipment.

FCC Radiation Exposure Statement
The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
