

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS**EUT Housing and
Board View 1****EUT Housing and
Board View 2**

Solder Board-Component View 1	 A photograph of a rectangular solder board component with a white surface and gold-colored solder points. The component is positioned vertically next to a black ruler with white markings. The ruler has two scales: a vertical scale on the left (0 to 100 mm) and a horizontal scale at the bottom (0 to 100 mm). The component is approximately 100 mm long and 20 mm wide. The background is a light blue textured surface.
Solder Board-Component View 2	 A photograph of the same solder board component from a different angle, showing the underside. The component is rectangular with a dark surface and gold-colored solder points. It is positioned vertically next to a black ruler with white markings. The ruler has two scales: a vertical scale on the left (0 to 100 mm) and a horizontal scale at the bottom (0 to 100 mm). The component is approximately 100 mm long and 20 mm wide. The background is a light blue textured surface.

Solder Board-Component View 3	 A photograph of a circuit board component, likely a battery or power management IC, placed on a blue background. A black ruler with white markings is positioned vertically to the left of the component, showing measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The component is rectangular with gold-colored solder pads along its edges. It features various components, including a large black integrated circuit (IC) with the part number '918730' visible, and several smaller components and capacitors. The component is oriented vertically.
Antenna View	 A photograph of the same circuit board component, oriented vertically, with a black ruler to its left. A red rectangular box highlights a small component on the top edge of the board. A red line extends from this box to a label 'BT Ant.' located in a red-bordered box at the bottom right of the image. The component is rectangular with gold-colored solder pads along its edges. It features various components, including a large black integrated circuit (IC) with the part number '918730' visible, and several smaller components and capacitors. The component is oriented vertically.
